## MINUTES FROM THE MAYOR

### MM.1 **Shop Local Campaign**

File: S02166

Ku-ring-gai is fortunate to have so many high quality small businesses that offer great personal service and are vital parts of our local neighbourhoods.

We have many local shops including butchers, patisseries and hairdressers that have won industry awards and small business awards based on voting by shoppers.

These businesses and others such as newsagents, pharmacies, delicatessens and fruit shops also work together to donate to local sporting and community organisations and help organise local events such as sausage sizzles and charity drives. Without these businesses our local communities would be much poorer.

In the current global financial crisis, businesses the world over are facing tough times. Ku-ring-gai's businesses are of course not immune from this crisis – and I believe Council could play a role in making sure they continue to prosper.

I am proposing that Councillors hold a workshop to discuss ways we could implement a 'Shop Local' campaign to encourage residents to support our local businesses.

A key message of such a campaign would be that shopping locally helps create a more sustainable local community – both economically and environmentally.

It has the twin aims of generating local economic activity and reducing residents' energy consumption and costs.

The campaign could urge residents to leave the car at home and walk or cycle to the local shops, pointing out they would save money on petrol, reduce their carbon footprint, improve their fitness and keep spending within the community.

Such a campaign would be consistent with the objectives of our Draft Climate Change Policy, which Councillors discussed with so much enthusiasm at our first General Committee meeting held on 24 March.

A Councillors' workshop would be the best way to work out how the campaign could be run. Possible options could be media releases, information on Council's website and Councillors visiting and liaising with neighbourhood centres to encourage events such as market days, community events and the like.

## PETITIONS

### PT.1 **West Lindfield Sports & Recreation Club - Support for the Development of Futsal Courts - (Four Hundred & Thirty-Nine [439] Signatures)**

File: S02712

"The following petition was extracted from <http://www.gopetition.com.au/online/25921.html> at the request of Councillor Jennifer Anderson on 29 March 2009 by e-mail.

#### **Background** (Preamble):

West Lindfield Sport and Recreation Club is dedicated to supporting the community through the provision of sporting and recreation facilities. Currently, there are 1800 playing members of the Lindfield Football Club and no all-weather practice courts in Ku-ring-gai.

By providing futsal courts, Lindfield FC will be able to hold futsal competitions and offer the all-weather facilities to local schools and groups. There are 5000 children attending schools within a 5km radius of the Club in Highfield Road, Lindfield. WLS&RC supports the fitness of children and their families by providing local facilities through a not-for-profit community organisation.

"We, the undersigned, call on Ku-ring-gai Council to support the development of futsal courts at West Lindfield Sport and Recreation Club.

We understand that there may be an increase in usage of the facilities following the development of the futsal courts, however, we believe that the better use of these community facilities and the provision of all-weather sports facilities provides a greater benefit to the local community than to keep the currently unused bowling greens".

## CODE OF MEETING PRACTICE

---

### EXECUTIVE SUMMARY

**PURPOSE OF REPORT:**

To recommend the public exhibition of a revised Code of Meeting Practice.

**BACKGROUND:**

On 29 July 2008 Council considered the revised Code of Meeting Practice following public exhibition.

**COMMENTS:**

On 29 July 2008 Council did not make a decision in respect of the adoption of the Code of Meeting Practice.

It has been eight months since Council considered the revised Code and since then further changes have been made. It is therefore recommended that the Draft Code of Meeting Practice be placed on public exhibition for comment before adoption by Council.

**RECOMMENDATION:**

That the revised Draft Code of Meeting Practice as attached be placed on public exhibition.

## PURPOSE OF REPORT

To recommend the public exhibition of a revised Code of Meeting Practice.

## BACKGROUND

On 29 July 2008 Council considered the revised Code of Meeting Practice following public exhibition.

## COMMENTS

On 29 July 2008 Council did not make a decision in respect of the adoption of the Code of Meeting Practice.

At the meeting the item was the subject of the following amendment that was lost:

- A. That the revised Code of Meeting Practice be adopted.
- B. That the second sentence of point 11 in Council's Order of Business for Council Meetings be as follows:  
  
Mayor to invite Councillors to nominate any items on the Agenda that they wish to adopt in accordance with the officer's recommendation allowing for minor changes without debate.

The following motion was also lost:

That consideration of the matter be deferred for further clarification of Clauses 3.18.2; 3.24.2; 5.6.2 and 6.2.1 and due to the lack of a pre-briefing on the Code.

Council's existing Code of Meeting Practice was adopted in May 2005. The Code contains references to the *Local Government (Meetings) Regulation 1999* that was repealed in 2005. Other legislative changes are also missing from the Code. The existing Code is therefore out of date.

A revised Code of Meeting Practice was drafted and presented to the Policy Forum on 31 March 2008 and considered by Council as follows:

- Council Meeting – 29 April 2008 where it was endorsed for placing on public exhibition
- Council Meeting – 29 July 2008 where it was recommended for adoption following the public exhibition where no submissions were received.

The following comments are made in respect of the matters raised in the above amendment and motion.

### Order of Business

Point 11 of the Order of Business in Attachment A of the Code states, in part:

Item 1

S02211  
31 March 2009

Mayor to invite Councillors to nominate any items on the Agenda that they wish to adopt in accordance with the officer's recommendation and without debate.

The change proposed at the Council Meeting states:

Mayor to invite Councillors to nominate any items on the Agenda that they wish to adopt in accordance with the officer's recommendation allowing for minor changes without debate.

This change has not previously been raised. It can be incorporated into the Code.

Clause 3.18.2

This clause deals with speaking times and states:

Each councillor shall be granted a maximum of five (5) minutes to speak on an item. A warning signal shall be given at 4 minutes and 30 seconds. No extensions of time shall be granted.

This clause is a copy of part of clause 8 of the existing Code. No change has been made to the existing provision.

Concern was expressed that this clause may have some conflict with part of clause 3.18.1 – clause 250(3) of the Regulation – that allows for additional speaking time in order to explain a misrepresentation or misunderstanding.

As clause 3.18.1 is a direct quote from the Regulation it would, as explained in clause 1.4, take precedence over 3.18.2 should there ever be any need for clarification. Although the provision is in Council's existing Code, to avoid any possible confusion, the clause could be amended to read:

Each councillor shall be granted a maximum of five (5) minutes to speak on an item. A warning signal shall be given at 4 minutes and 30 seconds. No extensions of time shall be granted other than that permitted by 3.18.1.

Clause 3.24.2

This clause deals with rescission motions and states:

A notice of rescission must be placed on a council meeting agenda, or it can be brought forward as a matter of great urgency in accordance with clause 241(3) of the Regulation (see 3.7) if council so resolves.

This clause is a copy of part of clause 6.2 of the existing Code with the reference to the Regulation and the related clause being updated. No change has been made to the intent of the existing provision.

Clause 3.7 quotes clause 241 of the Regulation that states:

*(1) A council must not transact business at a meeting of the council:*

*(a) unless a councillor has given notice of the business in writing within such time before the meeting as is fixed by the council's code of meeting practice or (if the*

Item 1

S02211  
31 March 2009

*council does not have a code of meeting practice or its code of meeting practice does not fix that time) as is fixed by resolution of the council, and*

- (b) unless notice of the business has been sent to the councillors in accordance with section 367 of the Act.*
- (2) Subclause (1) does not apply to the consideration of business at a meeting if the business:*
  - (a) is already before, or directly relates to a matter that is already before, the council, or*
  - (b) is the election of a chairperson to preside at the meeting as provided by clause 236(1), or*
  - (c) is a matter or topic put to the meeting by the chairperson in accordance with clause 243, or*
  - (d) is a motion for the adoption of recommendations of a committee of the council.*
- (3) Despite subclause (1), business may be transacted at a meeting of a council even though due notice of the business has not been given to the councillors. However, this can happen only if:*
  - (a) a motion is passed to have the business transacted at the meeting, and*
  - (b) the business proposed to be brought forward is ruled by the chairperson to be of great urgency.*

*Such a motion can be moved without notice.*
- (4) Despite clause 250, only the mover of a motion referred to in subclause (3) can speak to the motion before it is put.*

It is understood that concern has been expressed about whether a notice of rescission may be dealt with at the same meeting at which it is lodged.

In this regard the following is an extract from the Department of Local Government Meetings Practice Note No. 16:

***If council passes a resolution and a rescission motion is lodged at the same meeting, can the rescission motion be dealt with at that meeting?***

*Section 372(1) of the Act requires notice of a rescission motion to be given in accordance with council's Meeting Code. A rescission motion could be dealt with at the same meeting at which the resolution is passed if the Meeting Code states, for example, that thirty (30) minutes notice must be given.*

*However, clause 241(2)(a) and clause 241(3) of the Regulation allow business to be transacted when due notice has not been given. Some authorities believe that this clause*

Item 1

S02211  
31 March 2009

*should not be used for rescission motions. Clause 241(3) should be used only when a matter is genuinely urgent.*

Although this information is not as definitive as would be preferred, it would appear that the provisions of clause 241(3) allow, or at least do not prevent, a notice of rescission from being dealt with at the same meeting as it is lodged under urgent circumstances.

Inevitably there will be circumstances where it is essential for a rescission meeting to be dealt with on the same night as it is lodged. For example, if Council carries a resolution to bid at an auction to buy a property and the auction is being held the next day, should a rescission motion be submitted during that meeting it would be a genuinely urgent situation under which Council may choose to deal with the rescission that night so that there is a decision in place prior to the auction.

Council's existing Code of Meeting Practice (clause 6.2) acknowledges that urgent consideration of a rescission notice may be required at some time and that provision has been carried over to the new Code as clause 3.24.2. As the Meeting Code is effectively authorising the dealing with a rescission motion in urgent circumstances at the same meeting as it is lodged no further action is required.

Clause 5.6.2

This clause deals with Council Committees (Committees created by the Council whose membership comprises Councillors only) and states:

In the absence of any decision in clause 265(2) of the Regulation, or if the council so resolves, the chairperson shall not have a casting vote except in the case of a committee of the whole.

Clause 265 of the Regulation (clause 5.6.1) states:

- (1) Subject to subclause (3), each committee of a council may regulate its own procedure.*
- (2) Without limiting subclause (1), a committee of a council may decide that, whenever the voting on a motion put to a meeting of the committee is equal, the chairperson of the committee is to have a casting vote as well as an original vote.*
- (3) Voting at a committee meeting is to be by open means (such as on the voices or by show of hands)*

Clause 5.6.2 was included to clarify the position with the casting vote of the Chairperson of a Committee. Clause 265(2) of the Regulation requires a Committee to make a conscious decision to give the Chairperson a casting vote. Clause 5.6.2 was intended to make it clear that if the Committee does not make that decision then the Chairperson does not have a casting vote. It also provided for the Council, as the body with the power to create and dissolve the Committee, to also have the power, when establishing a Committee's charter, to determine the issue of a casting vote.

In reality, unless a Committee has delegated powers, then it may be of limited consequence as to whether the Chairperson has that power. Any decision to take action or not take action on a matter will be determined by the Council itself and not the Committee.

Item 1

S02211  
31 March 2009

Clause 5.6.2 was seen as being supplementary to clause 265(2) of the Regulation. However to remove any concerns about the matter clause 5.6.2 has been deleted and Council can rely solely on the wording of clause 265 of the Regulation.

Clause 6.2.1

This clause explains a non-pecuniary interest. Council's existing Code of Meeting Practice is deficient in dealing with the issue of Conflict of Interests and as such most of Part 6 of the new Code has been added.

Clause 6.2.1 was a direct quote from Council's *Conflict of Interests Policy*. Council has since adopted a new *Code of Conduct*. For consistency it is proposed that the wording of this clause be changed to that which appears in the new *Code of Conduct* (clause 7.10) as follows:

Non-pecuniary interests are private or personal interests that do not amount to a pecuniary interest as defined in the Act. These commonly arise out of family, or personal relationships, or involvement in sporting, social or other cultural groups and associations and may include an interest of a financial nature.

Clause 6.5.3

This clause in the exhibited draft states:

A councillor or a member of a council committee who has a non-pecuniary interest in any matter with which the council is concerned and who is present at a meeting of the council or committee at which the matter is being considered should disclose the interest to the meeting as soon as practicable.

As a consequence of the adoption of the new *Code of Conduct* (clauses 7.13 to 7.20) an amendment to this clause is now necessary to incorporate the requirement to disclose all non-pecuniary interests and to leave the meeting if a significant non-pecuniary interest exists.

It is proposed that the clause be amended to read:

A councillor or a member of a council committee who has a non-pecuniary interest in any matter with which the council is concerned and who is present at a meeting of the council or committee at which the matter is being considered must disclose the interest to the meeting as soon as practicable. In accordance with clause 7.17 of Council's *Code of Conduct*, if the source of the conflict cannot be removed, the councillor or committee member must have no involvement in the matter, by absenting and not taking part in any debate or voting on the issue as if the provisions in section 451(2) of the Act apply.

The changes discussed above to the Order of Business and clauses 3.18.2, 6.2.1 and 6.5.3 have been incorporated in the revised Code which is attached (Attachment A).

General Committee

Since the original redrafting of the Code of Meeting Practice occurred Council has established a General Committee.

Item 1

**S02211**  
**31 March 2009**

Part 5 of the Code deals with Council Committees. This Part of the Code provides for Council Committees to be established and managed. There is no necessity for the General Committee to be specifically mentioned in Part 5. Council may, at some time in the future, decide to cease the operation of the committee or decide to establish new committees. Part 5 would allow those actions to be taken without the need to change the Code of Meeting Practice.

However, for completeness the current Charter and Procedures for the General Committee are included in the Code as Attachment D with a footnote reference at clause 5.2. In accordance with clause 1.5 of the Code footnotes and attachments are provided to assist understanding and they do not form part of the Code. This allows Council to amend the Charter and allows the Committee to amend its Procedures from time to time if considered necessary without the need to firstly re-exhibit the Code.

The General Committee, when considering its procedures on 24 March 2009, also resolved that an amended Code of Meeting Practice be prepared in accordance with the Act for adoption by Council after public exhibition.

## CONSULTATION

Section 361 of the Local Government Act 1993 requires that the Code be placed on public exhibition inviting submissions for at least 28 days.

An advertisement was placed in the North Shore Times on 6 June 2008 and the Code was available on Council's website during the exhibition period 6 June to 18 July 2008.

No submissions were received and as such the Code of Meeting Practice was recommended for adoption as exhibited on 29 July 2008.

Section 362 of the Act states:

- (1) After considering all submissions received by it concerning the draft code, the council may decide:
  - (a) to amend those provisions of its draft code that supplement the regulations made for the purposes of section 360, or
  - (b) to adopt the draft code as its code of meeting practice.
- (2) If the council decides to amend its draft code, it may publicly exhibit the amended draft in accordance with this Division or, if the council is of the opinion that the amendments are not substantial, it may adopt the amended draft code without public exhibition as its code of meeting practice.

It is considered that the changes proposed in this report are either not substantial or are required as a consequence of the *Code of Conduct* and therefore Council could now adopt the Code with the proposed changes. However, in view of the amount of time that has elapsed and the decision of the General Committee of 24 March 2009, the amended draft Code should be exhibited.

## **FINANCIAL CONSIDERATIONS**

There are no financial considerations.

## **CONSULTATION WITH OTHER COUNCIL DEPARTMENTS**

The General Manager was involved in the preparation of the revised Policy.

## **SUMMARY**

The revised Code of Meeting Practice has been exhibited and no submissions were received. Some further changes have been proposed and they have been incorporated into the draft Code. It is recommended that the draft Code now be placed on public exhibition.

## **RECOMMENDATION**

That the revised draft Code of Meeting Practice as attached be placed on public exhibition.

- ensure that councillors conduct themselves with high standards of behaviour, making a positive contribution to all debates and decisions
- ensure that meetings comply with the basic principle of the *Local Government Act 1993* that councillors not involve themselves in day-to-day administration and meetings are restricted to matters of policy, direction, resource allocation and statutory decisions.

***chairperson*** means, in relation to a meeting of the council, the person presiding at the meeting as provided by section 369 of the Act, and, in relation to a meeting of a committee, the person presiding at the meeting as provided by clause 267 of the Regulation

***committee*** means a committee established under clause 260 of the Regulation or the council when it has resolved itself into a committee of the whole

#### **1.4 Legislation**

The principle legislation governing council and committee meetings is the *Local Government Act 1993* and the *Local Government (General) Regulation 2005*.

This Code is made pursuant to section 360(2) of the Act which provides that a council may adopt a Code of Meeting Practice that incorporates the relevant legislation supplemented with further provisions that are not inconsistent with the legislation. Under section 361 a draft Code must be publicly exhibited for 28 days and submissions must be invited for 42 days. Under section 362 council must consider all submissions received before adoption of the Code which can be with amendments or in original draft form.

Pursuant to section 360(3) of the Act, the council and a committee of which all members are councillors must conduct its meetings in accordance with this Code.

This Code incorporates relevant provisions of the Act and the Regulation.

**Words appearing in *italics* are a direct quote from the Act or the Regulation.**

In the event of any inconsistency between this Code and the Act or the Regulation, the Act or the Regulation (as the case may be) prevails to the extent of the inconsistency. Any ruling or interpretation not covered by this code or legislation shall be determined by resolution of council.

- (2) Such a minute, when put to the meeting, takes precedence over all business on the council's agenda for the meeting. The chairperson (but only if the chairperson is the mayor) may move the adoption of the minute without the motion being seconded.*
- (3) A recommendation made in a minute of the chairperson (being the mayor) or in a report made by a council employee is, so far as adopted by the council, a resolution of the council.*

3.9.2 Mayoral minutes shall always be in writing and be signed by the mayor.

### **3.10 Report of a Departmental representative**

#### **3.10.1 Clause 244 of the Regulation**

*When a report of a Departmental representative has been presented to a meeting of a council in accordance with section 433 of the Act, the council must ensure that the report:*

### **3.12 Motions to be seconded**

#### **3.12.1 Clause 246 of the Regulation**

*A motion or an amendment cannot be debated unless or until it has been seconded. This clause is subject to clauses 243(2) and 250(5).<sup>5</sup>*

- 3.12.2 The seconder of a motion or of an amendment may reserve the right to speak later in the debate.

### **3.13 How subsequent amendments may be moved**

#### **3.13.1 Clause 247 of the Regulation**

- 3.13.2 It is permissible during the debate on an amendment for a further amendment to be foreshadowed. However, any such foreshadowed amendment shall not be moved and debated until the amendment is dealt with.

### **3.14 Motions of dissent**

#### **3.14.1 Clause 248 of the Regulation**

*(1) A councillor can, without notice, move to dissent from the ruling of the chairperson on a point of order. If that happens, the chairperson must suspend the business before the meeting until a decision is made on the motion of dissent.*

---

<sup>5</sup> clause 243(2) deals with Mayoral Minutes (see 3.9.1) and clause 250(5) deals with limitation as to the number of speeches (see 3.18.1).

*(2) If a motion of dissent is passed, the chairperson must proceed with the suspended business as though the ruling dissented from had not been given. If, as a result of the ruling, any motion or business has been discharged as out of order, the chairperson must restore the motion or business to the agenda and proceed with it in due course.*

*(3) Despite clause 250, only the mover of a motion of dissent and the chairperson can speak to the motion before it is put. The mover of the motion does not have a right of general reply.*

### **3.15 Petitions**

3.15.1 Where a petition has already been placed on an agenda, the councillor presenting the petition is to briefly refer to the subject matter and move a motion as to how the matter is to be determined by council. The usual motion would be along the lines of:

"That the petition be received and referred to the appropriate officer of council for attention."

3.15.2 Where a petition has not been placed on an agenda the councillor presenting the petition is to refer briefly to the subject matter of the petition without necessarily reading the petition and then hand it to the mayor for subsequent reading by the general manager (if necessary) and the councillor may move a motion as set out in 3.15.1 above.

3.15.3 Only when a petition is urgent or refers to business already placed on the agenda for that meeting is a councillor to recommend that action be taken on the basis of the petition.

*(3) The councillor must put every such question directly, succinctly, and without argument.*

*(4) The chairperson must not permit discussion on any reply or refusal to reply to a question put to a councillor or employee under this clause.*

3.16.2 Questions without Notice shall always be in writing so as to remove any doubt as to whether the minutes have recorded the question correctly.

3.16.3 Questions shall not be so formed as to be an avoidance of a Notice of Motion.

3.16.4 Questions without Notice are limited to two (2) questions per Councillor per meeting.

3.16.5 No debate shall be taken on Questions without Notice.

### **3.17 Mode of address**

3.17.2 Councillors, with the exception of the chairperson, or any person prevented by physical infirmity, shall stand when speaking.

3.17.3 The requirement to stand when speaking shall not include any part of the meeting where the council is in committee of the whole.

### **3.18 Limitation as to number of speeches**

#### **3.18.1 Clause 250 of the Regulation**

*(1) A councillor who, during a debate at a meeting of a council, moves an original motion has the right of general reply to all observations that are made by another councillor during the debate in relation to the motion and to any amendment to it, as well as the right to speak on any such amendment.*

- (2) A councillor, other than the mover of an original motion, has the right to speak once on the motion and once on each amendment to it.*
  - (3) A councillor must not, without the consent of the council, speak more than once on a motion or an amendment, or for longer than 5 minutes at any one time. However, the chairperson may permit a councillor who claims to have been misrepresented or misunderstood to speak more than once on a motion or an amendment, and for longer than 5 minutes on that motion or amendment to enable the councillor to make a statement limited to explaining the misrepresentation or misunderstanding.*
  - (4) Despite subclauses (1) and (2), a councillor may move that a motion or an amendment be now put:*
    - (a) if the mover of the motion or amendment has spoken in favour of it and no councillor expresses an intention to speak against it, or*
    - (b) if at least 2 councillors have spoken in favour of the motion or amendment and at least 2 councillors have spoken against it.*
  - (5) The chairperson must immediately put to the vote, without debate, a motion moved under subclause (4). A seconder is not required for such a motion.*
  - (6) If a motion that the original motion or an amendment be now put is passed, the chairperson must, without further debate, put the original motion or amendment to the vote immediately after the mover of the original motion has exercised his or her right of reply under subclause (1).*
  - (7) If a motion that the original motion or an amendment be now put is rejected, the chairperson must allow the debate on the original motion or the amendment to be resumed.*
- 3.18.2 Each councillor shall be granted a maximum of five (5) minutes to speak on an item. A warning signal shall be given at 4 minutes and 30 seconds. No extensions of time shall be granted other than that permitted by 13.18.1.
- 3.18.3 The mayor is bound by the provisions of 3.18.1 above except when clarifying issues or statements during an address by a councillor so as to facilitate the progress of the meeting.

### **3.19 Relevance in debate**

- 3.19.1 In the course of debate a councillor shall not introduce material that is irrelevant to the item under discussion. If a councillor is called to order for second time in a single speech for introducing irrelevant material, the councillor shall immediately cease speaking and resume their seat. Failure to do so shall constitute an act of disorder.

### **3.20 Voting at Council meetings**

#### **3.20.1 Section 370 of the Act**

- (1) Each councillor is entitled to one vote.*
- (2) However, the person presiding at a meeting of the council has, in the event of an equality of votes, a second or casting vote.*

- 3.20.2 If a motion, when put to the vote, results in a tied vote and a casting vote is not used, then the motion is unsuccessful.

#### **3.20.3 Clause 251 of the Regulation**

- (1) A councillor who is present at a meeting of a council but who fails to vote on a motion put to the meeting is taken to have voted against the motion.*
- (2) If a councillor who has voted against a motion put at a council meeting so requests, the general manager must ensure that the councillor's dissenting vote is recorded in the council's minutes.*
- (3) The decision of the chairperson as to the result of a vote is final, unless the decision is immediately challenged and not fewer than 2 councillors rise and demand a division.*
- (4) When a division on a motion is demanded, the chairperson must ensure that the division takes place immediately. The general manager must ensure that the names of those who vote for the motion and those who vote against it are respectively recorded in the council's minutes.*

*(5) Voting at a council meeting, including voting in an election at such a meeting, is to be by open means (such as on the voices or by show of hands). However, the council may resolve that the voting in any election by councillors for mayor or deputy mayor is to be by secret ballot.<sup>6</sup>*

3.20.4 In those circumstances where a decision is unanimous, the words “CARRIED UNANIMOUSLY” shall be recorded in the minutes.

3.20.5 In those circumstances where a decision is not carried unanimously, the chairperson shall announce the names of the councillors who voted against a motion or amendment and the names shall be recorded in the minutes.

### **3.21 Decisions of the Council**

### **3.22 Resolutions passed at closed meetings**

#### **3.22.1 Clause 253 of the Regulation**

*If a council passes a resolution during a meeting, or a part of a meeting, that is closed to the public, the chairperson must make the resolution public as soon as practicable after the meeting or part of the meeting has ended.*

### **3.23 Recommittal of items**

3.23.1 If, prior to the completion of a meeting, a councillor or group of councillors consider that a decision made earlier is lacking in judgement or precision a formal written Notice of Rescission shall be completed and brought to the immediate attention of the Council.

3.23.2 Such Notice of Rescission shall be dealt with as Business without Notice (see 3.7 and 3.24 of this Code).

---

<sup>6</sup> part II of the Regulation provides that a council is to resolve whether an election by the councillors for mayor or deputy mayor is to be by preferential ballot, ordinary ballot or open voting (clause 394 and clause 3 of Schedule 7). Clause 3 of Schedule 7 also makes it clear that “ballot” has its normal meaning of secret ballot.

### **3.24      Rescinding or altering resolutions**

#### **3.24.1      Section 372 of the Act**

- (1) A resolution passed by a council may not be altered or rescinded except by a motion to that effect of which notice has been duly given in accordance with regulations made under section 360 and, if applicable, the council's code of meeting practice.*
- (2) If notice of motion to rescind a resolution is given at the meeting at which the resolution is carried, the resolution must not be carried into effect until the motion of rescission has been dealt with.*
- (3) If a motion has been negatived by a council, a motion having the same effect must not be considered unless notice of it has been duly given in accordance with council's code of meeting practice.*
- (4) A notice of motion to alter or rescind a resolution, and a notice of motion which has the same effect as a motion which has been negatived by the council, must be signed by at least 3 councillors if less than 3 months has elapsed since the resolution was passed, or the motion was negatived, as the case may be.*
- (5) If a motion to alter or rescind a resolution has been negatived, or if a motion which has the same effect as a previously negatived motion, is negatived, no similar motion may be brought forward within 3 months. This subclause may not be evaded by substituting a motion differently worded, but in principle the same.*
- (6) A motion to which this section applies may be moved on the report of a committee of the council and any such report must be recorded in the minutes of the meeting of the council.*
- (7) The provisions of this section concerning negatived motions do not apply to motions of adjournment.*

- 3.24.2      A notice of rescission must be placed on a council meeting agenda, or it can be brought forward as a matter of great urgency in accordance with clause 241(3) of the Regulation (see 3.7) if council so resolves.**

- 3.24.3 A mayoral minute cannot be used as a device to bring forward a rescission motion, although if a mayoral minute is also signed by two other councillors, it can be regarded as a notice of rescission, and by virtue of one of the signatories being the mayor can receive prominence on the agenda.
- 3.24.4 If need be an extraordinary meeting may be called to consider a notice of rescission.
- 3.24.5 A rescission motion presented to council prior to the close of a meeting has the effect of stopping all action on the decision.
- 3.24.6 The mayor or any councillors have absolutely no authority to prevent implementation of a resolution of council where a notice rescission is presented at some time after closure of a meeting.
- 3.24.7 Where a resolution of council involves the granting or refusal of consent or any other formal statutory licence giving rise to legal rights, and such decision has been communicated in writing to the applicant, council's decision is incapable of being revoked even if a notice of rescission is lodged at some future time.
- 3.24.8 If a notice of rescission is lodged in relation to a matter that involves a development approval, the notice of rescission should not be dealt with by council until the applicant and any objectors who have addressed council on the matter are informed in writing of the notice of rescission and the date of the meeting at which the notice of rescission is to be considered.
- 3.24.9 For the purposes of section 372(6), council sitting as a committee of the whole, is a committee of council.

### **3.25 Conclusion of meetings and motions of adjournment**

- 3.25.1 The continuation of a meeting after 12.00 midnight shall be dependent upon a motion for extension being carried by at least two thirds of the members of the council being present at the meeting (e.g. if 10 councillors are present it will require a vote of at least 7 for the motion; if 9 are present, it will require a vote of at least 6).
- 3.25.2 Discussion shall not be permitted on any motions for adjournment of a Council meeting. If a motion for adjournment, when put to the vote, is lost, then the meeting shall continue and no further motion for adjournment may be put for a period of not less than half an hour.

### **3.26 Unfinished business**

- 3.26.1 If at the conclusion of a meeting there is unfinished business, then the matters remaining to be dealt with on the business paper shall be brought forward to be dealt with at the next meeting of the council, such business to be dealt with at the next meeting as priority items of business and listed on the business paper accordingly.

### **3.27 Reports of councillors and presentations**

- (1) The chairperson, without the intervention of any other councillor, may call any councillor to order whenever, in the opinion of the chairperson, it is necessary to do so.*
- (2) A councillor who claims that another councillor has committed an act of disorder, or is out of order, may call the attention of the chairperson to the matter.*
- (3) The chairperson must rule on a question of order immediately after it is raised but, before doing so, may invite the opinion of the council.*
- (4) The chairperson's ruling must be obeyed unless a motion dissenting from the ruling is passed.*

4.1.2 In accordance with clause 270 of the Regulation, the provisions of this clause apply to meetings of committees of the council in the same way as they apply to meetings of the council.

### **4.2 Acts of disorder by councillors**

#### **4.2.1 Clause 256 of the Regulation**

- (3) A councillor may, as provided by section 10(2)(a) or (b) of the Act be expelled from a meeting of a council for having failed to comply with a requirement under subclause (2). The expulsion of a councillor from the meeting for that reason does not prevent any other action from being taken against the councillor for the act of disorder concerned.*

- 4.2.2 A councillor may seek a ruling from the chairperson on whether another councillor is out of order or has committed an act of disorder, whereupon the chairperson shall make a ruling.
- 4.2.3 If a councillor, after having been called to order by the chairperson on three (3) occasions at the same meeting, refuses to come to order, the councillor shall have committed an act of disorder.
- 4.2.4 If a councillor, having been called on by the meeting chairperson to withdraw a disorderly or improper remark and apologise unreservedly, fails to do so, the councillor shall have committed an act of disorder.
- 4.2.5 When, through a ruling of the meeting a councillor has committed an act of disorder, the chairperson may immediately, without debate, put to the meeting a motion that the councillor be excluded from the remainder of the meeting. If the motion is carried the councillor shall leave the chamber immediately and not participate further in the meeting.

The council, on reassembling, must, on a question put from the chair, decide without debate whether the business is to be proceeded with or not. This subclause applies to disorder arising from the conduct of members of the public as well as disorder arising from the conduct of councillors.*
- (2) *A member of the public may, as provided by section 10(2)(a) or (b) of the Act, be expelled from a meeting of a council for engaging in or having engaged in disorderly conduct at the meeting.*

4.3.2 In accordance with clause 270 of the Regulation, the provisions of this clause apply to meetings of committees of the council in the same way as they apply to meetings of the council.

- (2) If any such person, after being notified of a resolution or direction expelling him or her from the meeting, fails to leave the place where the meeting is being held, a police officer, or any person authorised for the purpose by the council, committee or person presiding, may, by using only such force as is necessary, remove the first-mentioned person from that place and, if necessary, restrain that person from re-entering that place.*

### **6.1 Pecuniary interest**

#### **6.1.1 Section 442 of the Act**

- (1) For the purposes of this Chapter, a “pecuniary interest” is an interest that a person has in a matter because of a reasonable likelihood or expectation of appreciable financial gain or loss to the person.*
- (2) A person does not have a pecuniary interest in a matter if the interest is so remote or insignificant that it could not reasonably be regarded as likely to influence any decision the person might make in relation to the matter or if the interest is of a kind specified in section 448.*

### **6.2 Non-Pecuniary interest<sup>11</sup>**

#### **6.2.1**

Non-pecuniary interests are private or personal interests that do not amount to a pecuniary interest as defined in the Act. These commonly arise out of family, or personal relationships, or involvement in sporting, social or other cultural groups and associations and may include an interest of a financial nature.

### **6.3 Persons who have a pecuniary interest**

#### **6.3.1 Section 443 of the Act**

- (1) For the purposes of this Chapter, a person has a pecuniary interest in a matter if the pecuniary interest is the interest of:*

  - (c) a company or other body of which the person, or a nominee, partner or employer of the person, is a member.*

- (a) if the person is unaware of the relevant pecuniary interest of the spouse, de facto partner, relative, partner, employer or company or other body, or*
- (b) just because the person is a member of, or is employed by, a council or a statutory body or is employed by the Crown, or*
- (c) just because the person is a member of, or a delegate of a council to, a company or other body that has a pecuniary interest in the matter, so long as the person has no beneficial interest in any shares of the company or body.*

6.3.2 The general manager has no role in determining whether or not a councillor has a pecuniary interest in a matter. The onus is on individual councillors to make such determinations. Given the complexities involved in the matter, where doubt exists individuals should seek their own legal advice. Such advice shall not be provided by staff or council's legal advisors.

6.3.3 Complaints regarding a failure of a councillor or staff member to disclose a pecuniary interest should be made to the Director-General of the Department of Local Government in accordance with section 460 of the Act.

  - (i) land in which the person or a person, company or body referred to in section 443 (1) (b) or (c) has a proprietary interest (which, for the purposes of this paragraph, includes any entitlement to the land at law or in equity and any other interest or potential interest in the land arising out of any mortgage, lease, trust, option or contract, or otherwise), or*
  - (ii) land adjoining, or adjacent to, or in proximity to land referred to in subparagraph (i) if the person or the person, company or body referred to in section 443 (1) (b) or (c) would by reason of the proprietary interest have a pecuniary interest in the proposal,*

*(3) For the removal of doubt, a councillor or a member of a council committee is not prevented by this section from being present at and taking part in a meeting at which a matter is being considered, or from voting on the matter, merely because the councillor or member has an interest in the matter of a kind referred to in section 448.*

The park provides an important community facility for sporting and school groups. Lindfield Junior Rugby Club and Newington Preparatory School, Lindfield have used a shipping container for storing equipment at Koola Park for many years and have recently raised funds for the construction of a permanent building.
<b>COMMENTS:</b>	Lindfield Junior Rugby Club and Newington Preparatory School, Lindfield have applied to Council to replace the shipping container at Koola Park, East Killara, with a permanent building of size. The construction of the new building would be funded by the two groups though would be owned by Council. Under the SEPP (Infrastructure) 2007, amenities facilities at public reserves, such as the one proposed, do not require development approval. However, for transparency this project has been referred to Council for its consideration.
<b>RECOMMENDATION:</b>	That Council approve the construction of a storage facility at Koola Park, East Killara subject to the conditions outlined in the report.

## PURPOSE OF REPORT

To seek Council's approval for the construction of a storage facility at Koola Park, East Killara to be funded by Lindfield Junior Rugby Club and Newington Preparatory School, Lindfield.

## BACKGROUND

Koola Park, East Killara, has been servicing local sporting and recreational needs since 1932. The playing fields were constructed in 1969. The park and associated amenities provide an important community facility for sporting and school groups.

Lindfield Junior Rugby Club and Newington Preparatory School, Lindfield have for many years used a shipping container for storage at Koola Park, East Killara. In 2008, the parties approached Council staff with a proposal to fund the replacement of the container with a brick storage facility in the same location.

## COMMENTS

The capital cost of the storage facility would be funded by the two parties and once completed would become the property of Council. The proposed storage facility will be used for storing playing equipment, uniforms, sporting equipment, non-perishable canteen stock, mobile barbeques and other related storage equipment.

The plans for the facility were prepared by the Lindfield Junior Rugby Club after consultation with Council's Team Leader Open Space and Recreation Planning, Principal Landscape Architect, and Building Trades Team Leader.

The proposal is subject to the State Environmental Planning Policy (Infrastructure) 2007. This planning instrument applies to, among other lands, public reserves within the same meaning as it has in the Local Government Act 1993. Under clause 65(3) development for any of the following purposes may be carried out by or on behalf of a council without consent on a public reserve under the control of or vested in the council:

- (a) roads, cycleways, single storey car parks, ticketing facilities and viewing platforms
- (b) outdoor recreational facilities, including playing fields, but not including grandstands
- (c) information facilities such as visitors' centres and information boards,
- (d) lighting, if light spill and artificial sky glow is minimised in accordance with AS/NZS 1158: 2007, *Lighting for Roads and Public Spaces*
- (e) landscaping, including irrigation schemes (whether they use recycled or other water)
- (f) amenity facilities
- (g) maintenance depots
- (h) environmental management works.

Under the SEPP (Infrastructure) 2007, amenities facilities at public reserves, such as this proposed storage facility upgrade, may be carried out without consent. However, for transparency reasons, such projects should still be approved by Council.

Item 2

**S03076**  
**25 March 2009**

Development standard plans, certifications and a Statement of Environmental Effects were prepared by Paynter Dixon Constructions Pty Ltd, on behalf of Lindfield Junior Rugby Club and Newington Preparatory School and submitted to Council in late December 2008. The plans have been certified by Chapman Hutchison Pty Ltd, Structural Engineering and Design, as having been designed in accordance with the Building Code of Australia and the relevant Australian Standards for structural adequacy, in particular, AS1170, AS2870, AS3600, and AS4100.

The proposed new storage facility will consist of reinforced concrete floor slab and footings, painted masonry walls and pre-finished profiled metal roofing with steel roof framing. It will match the construction type, colour, and scale of the adjacent amenities block.

Council's Senior Building Surveyor assessed the proposed storage facility as a Class 10a structure under the Building Code of Australia (BCA) and concluded that the proposal complies with the BCA. The following conditions must be complied with:

1. All building work must comply with the Building Code of Australia.
2. All structural work shall be inspected and certified by a practising professional structural engineer.
3. All stormwater drainage work must be carried out in accordance with Australian Standard/New Zealand Standard AS/NZS 3500 Plumbing and Drainage.

The existing amenities building on the site is not a local heritage item and is not in a conservation area. The proposed facility will have no significant environmental impact on the amenity of the neighbourhood, the streetscape or park. It will not change the nature of the activities conducted in the park. The site and proposed facility are considered appropriate.

## **CONSULTATION**

Surrounding residents in Koola Avenue were notified of the proposal and sent a copy of the proposed plan and elevations. Residents were given 14 days to submit comments and no comments were received.

## **FINANCIAL CONSIDERATIONS**

The removal of the existing shipping container and the construction of the proposed facility are to be fully funded by Lindfield Junior Rugby Club and Newington Preparatory School, Lindfield. The new asset would be registered on Council's building asset and would expect to have an ongoing financial cost.

## **CONSULTATION WITH OTHER COUNCIL DEPARTMENTS**

The application has been reviewed by a number of individuals within Council including a Senior Building Surveyor, Manager Engineering Services, Manager Open Space Services and Principal Landscape Architect. Each Council officer has responded without any objections or suggested modifications to the plans.

## **SUMMARY**

Lindfield Junior Rugby Club and Newington Preparatory School, Lindfield have applied to Council to replace the shipping container at Koola Park, East Killara, with a brick storage facility similar in size to the existing container, at their expense. It is considered that this facility will significantly improve the aesthetics of the park and is supported by staff and is recommended for approval by Council.

## **RECOMMENDATION**

That Council approve the construction of a storage facility at Koola Park, East Killara as described in the body of this report and funded by Lindfield Junior Rugby Club and Newington Preparatory School, Lindfield, subject to the following conditions:

- A. All building work must comply with the Building Code of Australia.
- B. All structural work shall be inspected and certified by a practising professional structural engineer.
- C. All stormwater drainage work must be carried out in accordance with Australian Standard/New Zealand Standard AS/NZS 3500 Plumbing and Drainage.

## WEST PYMBLE POOL OPERATION - TENDER PROCESS

---

### EXECUTIVE SUMMARY

<b>PURPOSE OF REPORT:</b>	To seek Council's approval to change the timetable for the tender for the operation of the new aquatic and leisure facility at West Pymble Pool.
<b>BACKGROUND:</b>	At the Ordinary Meeting of Council (OMC) on 16 December 2008, it was resolved that Council commence a selective tender process to provisionally engage an operator for this facility. Prior to this, an Expression of Interest (EOI) process was held to identify firms interested in managing the operation of the new facility. Six firms were considered capable of operating the facility and were approved to proceed to the selective tender stage at the OMC on 8 April 2008.
<b>COMMENTS:</b>	Previously, Council resolved to appoint an operator for the new aquatic and leisure facility on a provisional basis, with final appointment subject to a review of their performance and suitability during the design phase. In light of the timing for the design and approval of the facility and approval by the Minister for Local Government on the funding, it would be prudent of Council to delay seeking tenders from management firms until construction of the facility has commenced, so that the tenderers can be more accurate with their commercial assumptions and tender price.
<b>RECOMMENDATION:</b>	That Council: defer the selective tender for the operation of the West Pymble Pool until after the approval of funding and commencement of construction of the new facility; use an open tender process for the long term operation of the facility; and that Council write to the current facility lessees to offer a lease extension to operate the facility for the 2009/2010 swimming season.

## PURPOSE OF REPORT

To seek Council's approval to change the timetable for the tender for the operation of the new aquatic and leisure facility at West Pymble Pool.

## BACKGROUND

At the Ordinary Meeting of Council on 16 December 2008 it was resolved that Council commence a selective process to provisionally engage an operator for the new aquatic and leisure facility. The rationale for a provisional appointment was to ensure that an experienced facility operator was involved in the design process, while at the same time not conferring or assuming any right that the company would be automatically awarded the contract to operate the facility. This type of appointment would also allow Council to establish and determine how the operator would relate to and contribute to the design process.

Prior to this, an Expression of Interest (EOI) process was held to identify firms interested in managing the operation of the new facility. Six firms were considered capable of managing the facility. These firms were approved by Council at the OMC on 8 April 2008 to proceed to the selective tender stage. The six firms were:

- Aquabliss School of Swim
- Aquatic Leisure Management
- Bluefit
- Belgravia Leisure
- Michele and Ian Martin
- YMCA of Sydney

Council also resolved at the OMC on 8 April 2008 that, on appointment of the design tenderer, Council commence a selective tender for the operation of the facility.

The successful design tenderer, Suturs Prior and Cheney Architects, was engaged by Council immediately following confirmation of funding for the project at the Ordinary Meeting of Council on 16 December 2008. They commenced working on the project in February 2009.

## COMMENTS

After the Expression of Interest process early 2008, Council resolved to appoint an operator for the new aquatic and leisure facility on a provisional basis, with final appointment subject to a review of their performance and suitability during the design phase. While this is a sound and sensible process, it has now been recognised that if Council were to conduct the selective tender process immediately for the management of the facility, it would in effect be asking tenderers to submit a tender price two years prior to the new facility becoming operational. With the uncertainty surrounding the current economic downturn and the period of time before the new facility is due to be completed, it is possible that tenderers will need to be very conservative with their tender prices, and that Council may not get a competitive price.

Item 3

**S04066**  
**30 March 2009**

Furthermore, if the current operator is not the selected operator following the selective tender, it may be necessary for the new operator to commence their appointment at the expiry of the current lease in August 2009. This would require them to operate the facility for the summer 2009/10 swimming season, involving employing new staff, changing signage, a new administrative system, and other setup costs, for one season only, and then close the facility for a year during construction. Inevitably, this will lead to higher overheads for the new operator than would otherwise be the case.

Also difficult to determine in the current economic climate is an appropriate contract period which provides incentive for an operator to invest in the facility and is competitive and in the best interests of Council. By the time construction commences, following the 2009/10 summer swim period, Council should be in a better position to make this decision.

Therefore it would be prudent of Council to delay seeking tenders from management firms until construction of the facility has commenced so that the tenderers can be more accurate with their tender price.

In relation to the benefit of having an operator engaged during the design process, experience to-date has shown all potential operators that have been asked to comment or provide input into the design process have done so willingly. Collectively each has offered valuable insight and suggestions to the design process. It would be recommended that this process continue throughout the design phase and where necessary a nominal sum of \$1500 be set aside in the design budget for the purpose of covering travel and other incidental costs from prospective operators where they may be required to attend meetings or review designs.

Finally, given the period of time since the expression of interest for the design, construction and operation until the commencement of the successful tenderer, it is also recommended that an open tender process be used for the operation of the facility. This would enable greater opportunity and competition into the tender with the view that it should provide a greater response for Council.

## **CONSULTATION**

No community consultation is required for this appointment.

## **FINANCIAL CONSIDERATIONS**

Council can expect to pay no more than a nominal consultancy fee of \$1500 which can be set aside in the existing design budget for the purpose of covering travel and other incidental costs from prospective operators where they may be required to attend meetings or review designs.

## **CONSULTATION WITH OTHER COUNCIL DEPARTMENTS**

Staff from the Community and Recreation Facilities section who administer the pool lease have been consulted during the preparation of this report.

## **SUMMARY**

After the Expression of Interest process in early 2008 for the delivery of the new facilities at West Pymble Pool, Council resolved to appoint an operator for the new aquatic and leisure facility on a provisional basis, with final appointment subject to a review of their performance and suitability during the design phase. It would be prudent of Council to delay seeking tenders from aquatic and leisure management firms until approval of the special rate variation and construction of the facility has commenced, so that the tenderers can be more accurate with their commercial assumptions and tender price.

## **RECOMMENDATION**

- A. That Council defer the selective tender for the operation of the West Pymble Pool until after the construction of the new facility has commenced.
- B. That Council set aside \$1,500 from the existing project budget for the purpose of seeking input on the design process from operators that previously responded to the Expression of Interest.
- C. That, upon commencement of construction, Council use an open tender process for the operation of the facility.
- D. That Council write to the current facility lessees to offer a lease extension to operate the facility for the 2009/10 swimming season.
- E. That a report be brought back to Council as to the extent of the lease with the current operators.
- F. That Council notify the six firms, chosen to proceed to the select tender stage for the operation of the facility, of the new timetable for open tender.

## PRIORITISING CAPITAL WORKS

---

### EXECUTIVE SUMMARY

**PURPOSE OF REPORT:**

To update the ranking criteria for Capital Works Projects that is used to develop ongoing programs.

**BACKGROUND:**

Council at its meeting of 30 April 2002 and updated on 23 May 2006, resolved to adopt criteria as a basis for prioritising future Capital Works. This report provides an update to the ranking criteria that has been changed and adopted by Council for some of the Capital Works categories and provides Council with an opportunity to consider any amendments to the current ranking criteria.

**COMMENTS:**

Traditionally, Council has had limited funds available for Capital Works and the amount of funds required to bring Council's assets up to a satisfactory standard is unlikely to be realised.

Consequently, Council has recognised the need to reassess the criteria for each category of Capital Works and assign a rational basis for assessing proposed Capital Works. In a number of categories the ranking criteria can be used to assess priorities for maintenance funding.

**RECOMMENDATION:**

That Council adopt the updated ranking criteria as detailed in the report.

## PURPOSE OF REPORT

To update the ranking criteria for Capital Works Projects that is used to develop ongoing programs.

## BACKGROUND

Council at its meeting of 30 April 2002, resolved to adopt criteria as a basis for prioritising future Capital Works. Since the previous report in 2002, a report dated 23 May 2006 updated the criteria and was adopted by Council. This report provides a further update to the ranking criteria that has been adopted by Council for some of the Capital Works categories and provides Council with an opportunity to consider any amendments to the current ranking criteria.

Council's Operations and Strategy Departments maintains a List of Requested and Desirable Capital Works that has been prioritised on the previous criteria and a number of the future Capital Works programs are based on the adopted criteria.

## COMMENTS

Council has an extensive list of all proposed Capital Works that exceeds \$80 million.

Traditionally, Council has had limited funds available for Capital Works and the amount of funds required to bring Council's assets up to a satisfactory standard is unlikely to be realised. With the introduction of fair value and new accounting standards, an internal working group has been established to help develop the valuation of Council's assets, determination of useful and residual life of the various asset classes and what standards apply for determining the "satisfactory" standard.

Consequently, there is a need to reassess the criteria for each category of Capital Works and assign a rational basis for assessing proposed Capital Works. In a number of categories, the ranking criteria can be used to assess priorities for maintenance funding.

Development of a list of criteria based on needs and existing conditions would enable Council to provide a justification for prioritising Capital Works and potentially reducing Council's liability on issues of non-feasance.

There are also numerous requests on Council for new assets where they currently do not exist such as new footpaths, playgrounds, sportsfields, parks and facilities and these requests need to be assessed with funding required to maintain and manage Council's existing assets.

With a limited amount of funding for Capital Works, it may be possible to provide ratepayers with information on whether Council is able to carry out the works which are considered a priority and the likely timeframe when the works may be undertaken or not at all if the priority is low.

By developing a rational basis for assessing projects for each of the categories for Capital Works, staff can develop rolling programs and with some certainty of funding, prepare designs and plans in advance together with estimates of costs.

Item 4

S05347  
27 March 2009

Under each item of Capital Works, different conditions and impacts exist for each category of works. Below is a list of the various Capital Works items and following is an assessment of the criteria for each category of Capital Works.

- A. Stormwater Drainage
- B. Paved Paths
- C. Kerb and Gutter
- D. Road Rehabilitation
- E. Traffic facilities
- F. Cycleways
- G. Council Buildings
- H. Playgrounds
- I. Indigenous Tree Canopy Tree Planting
- J. Open Space Amenities
- K. Sportsfields
- L. Tennis Courts

**A. Stormwater Drainage**

An analysis of all of the catchments within the Council area has been carried out and a program has been developed based on the analysis and available funding.

Council would need to allocate significant funding to upgrade its drainage systems in order to meet flood frequencies of 1 in 20 year storm recurrence intervals, which is considered to be an acceptable standard for drainage design. Based on the catchment analysis, it is estimated that in excess of \$50 million is required to bring Council's drainage system to meet the current standard.

Since the adoption of the previous report in 2002, Council engaged drainage consultants to assess the three main catchments and develop a system that would assist in prioritizing drainage works in order to achieve a standard that would cater for flooding frequencies of 1 in 5 year storm events leading up to 1 in 100 year storm events.

A report submitted to Council in November 2003 adopted the following ranking criteria for drainage works and this was included in Council's Drainage Policy.

Subject to the above investigation, the following criteria was adopted by Council to rank capital works for drainage systems and no further changes are proposed to the current ranking criteria.

Total score = Score from (Severity of the Problem x 1.0)  
+ Score from (Indicative Budget Cost x 0.8)  
+ Score from (Ease of Implementation x 0.4)

## B. Paved Paths

Council has over 250 requests for the construction of paved paths where they currently do not exist and the estimated cost of this work is approximately \$9,000,000. Whilst a number of areas benefit from fully grassed verge areas, there are a number of streets that require hard paved surfaces to provide accessible paths for residents.

## Item 4

S05347  
27 March 2009

Areas where pedestrian usage is high, for example, around shopping centres, schools and nursing homes, are considered to be areas where hard paved surfaces are required.

Other factors considered to impact on the need for paved surfaces are street lighting deficiencies, bus stop locations, parks and playing fields and community facilities. Also, high traffic volumes and speeds make it dangerous to cross to a path on the other side of the street.

Below is the updated suggested criteria for new and replacement footpaths following some of the changes that were adopted last year and further consultation with residents:

<b>CATEGORY</b>	<b>EXTENT OF ACTIVITY</b>	<b>SCORE</b>

## Item 4

S05347  
27 March 2009**C. Kerb and Gutter**

Most of Council's new kerb and gutter works are usually associated with road reconstruction works.

In a significant number of locations, residents have resisted the installation of new kerb and gutter works in order to maintain the rural style appearance of the area.

Areas that may require new kerb and gutter due to high incidence of parking and pedestrian movement, would be around shopping centres, railway stations, bus stop locations, schools, nursing homes and hospitals. Also, kerb and gutter may overcome drainage problems in low lying areas and thereby overcoming localised flooding.

Below are the suggested criteria to be used for ranking of new kerb and gutter works.

<b>CATEGORY</b>	<b>EXTENT OF ACTIVITY</b>	<b>SCORE</b>
<b>Flooding impact</b>	Habitable rooms	10
	Minor buildings	7
	Garden areas	3
	Council roads	1
<b>Adjacent to shopping centres and railway stations</b>	Within 100 metres	3

<b>Adjacent to schools</b>	Within 100 metres	3

	Within 300 metres	1
<b>Adjacent to nursing homes or hospitals</b>	Within 100 metres	3
	Within 200 metres	2
	Within 300 metres	1
<b>Bus stop locations</b>	High usage sites	3
	Medium usage sites	2
	Low usage sites	0

**D. Road Rehabilitation**

Council has 442 listed roadworks projects estimated to cost \$56,181,100. The requests involve a number of treatments ranging from mill and resheeting to full reconstruction including the replacement of damaged kerb and gutter and drainage.

Council would be aware that the roadworks program is currently determined using a Pavement Management System. The Pavement Management System takes into account the following information when calculating the priorities for work:

- Traffic volume and growth
- Equivalent Standard Axles (heavy vehicle movement)
- Pavement condition
- Surface roughness

Item 4

S05347  
27 March 2009

- Surface rutting
- Pavement structure
- Treatment history
- Pavement layer modulus
- Surface and pavement replacement cost
- Life cycle modelling

Roads are then ranked according to a Pavement Condition Index.

The program determines the optimal works program based on the funds available. This system is used for the Council road network whereas funding for work on Regional Roads is dependent on funds from the RTA under the REPAIR and ex 3X3 programs.

The main principle of the PMS is to balance funds allocated to those roads which require minimal costs in the first instance to ensure that these roads remain in a satisfactory condition and then optimising available funds for work on roads that require full pavement reconstruction.

It is recommended that the Pavement Management System be used for assessment of the roadworks program and that the program be reviewed regularly following the update of data received from field surveys and inspections. Council uses the PMS to help justify the amount of funding required to bring its roads up to a satisfactory standard and is also used to help justify additional funding for the Infrastructure Levy.

Also, Council adopted a policy and a 3-year rolling program for road maintenance.

#### **E. Traffic Facilities**

Council receives numerous requests for addressing traffic problems in streets throughout the Council area.

Currently there are requests for 37 traffic projects totalling \$1,416,700. This amount does not include funding for the review of existing treatments.

Council has adopted a Traffic and Transport Policy which includes a ranking criteria based on traffic data.

The ranking criteria are proposed for local and collector roads. Because of the high traffic volumes and speeds on regional roads, the following criteria are not suggested for regional roads. Separate criteria could be developed for those roads and funding is likely to be sourced from the Roads and Traffic Authority through grants.

## Item 4

S05347  
27 March 2009

The suggested criteria for ranking traffic projects on collector and local roads is as follows and no changes are proposed to the criteria as indicated in the Traffic and Transport Policy:

CATEGORY	EXTENT OF ACTIVITY	SCORE	WEIGHT	MAX TOTAL
Accidents over the last 5 years, but dependent on accident/traffic volume data (intersection or mid-block) based on RTA and other sources such as insurance companies.	High accident: volume ratio	3	8	24

	5% to 10%	2		
	< 5%	1		
Level of community concern	High (written concern from a number of sections in the community on precinct related traffic issues)	4	3	12
	Medium (high number of residents on localised traffic issues)	3		
	Low (several residents)	2		
	Very Low (one resident)	1		
Pedestrian/cycling usage	High (near a school or shopping centre)	3	5	15
	Medium	2		
	Low	1		
Adjacent to schools	Within 100 metres	3	4	12
	Within 200 metres	2		
	Within 300 metres	1		
<b>TOTAL 102*</b> (*adjust to a percentage)				

## F. Cycleways

Cycleways are seen by the community as a form of recreation and access. Council adopted a Council wide bike plan in 1993 but this needs to be assessed further in consultation with the Roads and Traffic Authority.

Cycleways, if included in a plan that is consistent with the RTA objectives, attracts funding on a 50/50 basis. This may include dedicated cycleways, shared zones or road bike paths.

## Item 4

S05347  
27 March 2009

Ranking of cycleway projects should be based on the following criteria.

<b>CATEGORY</b>	<b>EXTENT OF ACTIVITY</b>	<b>SCORE</b>
Consistent with Council Bike Plan	Yes	5
	No	0
RTA Funding likely to be available	Yes	5
	No	0
Joins existing cycleway	Yes	3
	No	0
Frequency of use	High	5
	Medium	3
	Low	1
Adjacent to shopping centres and railway stations	Within 100 metres	5
	Within 200 metres	4
	Within 300 metres	3
	Within 500 metres	1
Adjacent to schools	Within 100 metres	5
	Within 200 metres	3
	Within 300 metres	1

## G. Council Buildings

Council allocates approximately \$1.6 million each year to the maintenance of Council buildings and its built assets. This also includes signposting.

The process of undertaking updated condition audits for Council buildings was completed in 2002 and carried out again in 2008. The condition audits are used to assess the funding required to bring its assets up to a satisfactory standard. Based on this information, a building maintenance works program is submitted to Council each year.

Council's priority is focused on statutory requirements of Occupational Health and Safety, BCA compliance and access, as assessed by the condition audits, as well as ensuring buildings do not deteriorate into a state of disrepair.

The ranking of building works is essentially a maintenance requirement and any capital improvement works will need to be considered separately.

The suggested ranking of building works is as follows:

<b>CATEGORY</b>	<b>EXTENT OF ACTIVITY</b>	<b>SCORE</b>
Occupational Health & Safety non compliance	High	10
	Medium	5
	Low	1
Building Code of Australia non compliance	High	5
	Medium	3
	Low	1
Accessibility non compliance	High	5
	Medium	3
	Low	1

## H. Playgrounds

### Background

There are 97 playground sites in Ku-ring-gai. Whilst the replacement value of this asset exceeds \$1.3 million it has a current value of approximately \$650,000. In 1995, Council funded a \$250,000 capital works upgrade of playgrounds in the Local Government Area to ensure that all playgrounds complied with Australian Playground Safety Standards. This program ensured the safety of playgrounds was established and recorded. This program did not address the distribution of playgrounds or their quality with regard to play opportunities for users and their carers. Since 1995, playground improvements have been limited to a few sites. A more proactive approach based on playground distribution, play quality and demographic need is being developed.

The benefits of this program are numerous and are listed below:

- Ensuring that Ku-ring-gai residents are able to safely access a playground within walking distance of home.
- Ensuring that there are play equipment replacement programs for the ageing assets.
- Establishment of playgrounds with links between areas that provide greater recreation opportunities.
- Establishment of playgrounds in or adjacent to, recognised recreation areas to enable the recreation experience to be improved and extended for families and neighbourhoods.
- Improving the landscape and/or streetscape character of an area.
- Integration of the assessment criteria with recurrent expenditure to ensure the most productive outcome for all Council expenditure on playgrounds.

Playgrounds in Open Space areas occur in:

- Sportsgrounds
- Parks
- Showground
- Ku-ring-gai Wildflower Garden
- Some Community Halls
- Some Shopping Centres

The criteria are designed in consideration of the benefits and desired outcomes of the program. The highest scoring playgrounds/locations are those where the result of undertaking playground establishment or improvements will provide the most benefit to the whole community and assist to engender an opportunity for local community meeting places.

### Assessment Criteria and Scoring

Each assessment criteria has a number of categories that are ranked in order of importance and a score attached to each. A detailed description of each category within the criteria and scores is shown below:

## Item 4

S05347  
27 March 2009**Identified deficiency in provision of play opportunities within the local area**

This criterion considers the proximity of the nearest playground, ideally within 500m maximum to enable walking. Consideration is also given to locations that may involve crossing main roads or the railway line, topographic features such as a creeks or bushland, and lack of accessible footpaths to a site.

**Asset condition of existing or nearest playground**

A large number of playgrounds are reaching a mature age, or being subject to serious damage from vandalism. An asset audit is required to be conducted annually by Australian Standards. The next audit is programmed for July. This audit ranks individual items of play equipment based on their compliance with AS safety requirements, condition, value and estimated life span.

**Target community can access playground**

This criterion focuses on the barriers that may restrict access of a playground to playground users.

**Project consistent with demographic projections of an area.**

Due to changing demographics, playgrounds developed in the past may no longer be appropriate to the age range of children at a site, or children may have left the area. Conversely, in the areas where the number of children is increasing, playgrounds may not be available. Through information collated for the current Section 94 plan the required data is available.

**Suitability of site for playground in accordance with Australian Standard Guidelines.**

An individual site location can be unsuitable for the location of a playground. The Australian Standards lists these recommended criteria. Compliance with as many criteria as possible is favourable to the success of the playground.

## I. Indigenous Canopy Tree Planting Programs

The benefits of this program are numerous and are listed below:

- Ensuring that Ku-ring-gai retains its leafy character.
- Ensuring that there are replacements already present for ageing and dying remnant trees.
- Establishment of Bio-links between areas of bushland.
- Establishment of indigenous canopy in, or adjacent to, recognised wildlife corridors or migration paths.

Item 4

S05347  
27 March 2009

- Bolstering threatened species and communities by increasing numbers of canopy trees adjacent to these areas.
- Improving the landscape and/or streetscape character of the area.

It is planned to expand future programs to include tree planting in other Open Space areas as well as the continuation of tree planting on road reserves.

These Open Space areas will include:

- Sportsfields/Golf Courses
- Reserves
- Parks
- Drainage reserves
- Other areas of little used Council owned land that is not planned to be sold and can accommodate canopy planting.

Use of such areas as listed above will provide significant results as far as the outcomes of the program are concerned. Indigenous canopy planting within both small isolated pockets of land or larger areas such as sportsfields and parks can contribute significantly to the establishment of bio-links and assist in linking Council's vegetation with National Parks that surround the Local Government Area.

The Tree Nurturers program has also gained momentum with Council recently being successful in receiving a grant through GREENWEB. This grant will allow for further improvements to be made to the already successful Tree Nurturers program.

### Identification of streets/locations suitable for this program

As the program has evolved, criteria have been developed for the assessment of streets/locations in an attempt to prioritise these works over future years. The assessment is designed to give a score to each street/location by evaluation of a number of specific criteria.

The criteria are designed in consideration of the benefits and desired outcomes of the program. The highest scoring streets/locations are those where the result of undertaking tree planting will provide the most benefit to both the community and the environment.

### Assessment Criteria and Scoring

Each assessment criteria has a number of categories that are ranked in order of importance and a score attached to each. A detailed description of each category within the criteria and scores is shown below.

### Proximity to Threatened Species and Habitat Value

This criterion considers the proximity of the street/location to flora or fauna identified under the Threatened Species Conservation Act or bushland as defined under SEPP 19. Consideration is also given to locations that may be in direct line of a migration route or recognised wildlife corridor.

## Item 4

S05347  
27 March 2009**Health/age of existing tree plantings**

Given that a large number of our existing tree plantings are reaching a mature age, it is considered more appropriate to plant in areas where older plantings exist to ensure canopy replenishment in the future. Employing Safe Useful Life Expectancy (SULE) as an assessment tool, this criteria ranks individual trees or stands of trees within a street/location based on their condition and estimated life span.

**Visual character amenity and heritage issues**

This criterion focuses on the visual character of a street/location and the impacts of indigenous tree planting on that character in addition to the improved amenity eg, shade that may be provided by undertaking plantings at that location.

**Liability and insurance issues**

Due to inappropriate species selection in the past, a number of Council's streets are subject to insurance claims for damage to private property due to tree roots. A pro-active approach to the minimisation of such claims would consist of planting more suitable indigenous trees that are more suited to the specific soil type. Once new trees are established, existing vegetation could be assessed with regard for their potential to cause damage and removed if appropriate. The aim is to ensure that after refurbishment, there would be a net gain in overall canopy.

**Proximity to areas previously affected by severe storms**

Ku-ring-gai's tree canopy has suffered significantly over recent years as a result of two major storms in January 1991 and December 2001. Replenishment of canopy within these areas is considered to be a priority.

## J. Open Space Amenities

The assessment and prioritisation of Open Space amenities is closely linked to the building condition audits being undertaken. Many of Council's amenities are in poor condition and by linking facility condition with facilities that are in highest demand a matrix indicating where works will be of benefit to the maximum of the community has been developed.

## Item 4

## K. Sportsfields

Council has currently 68 hectares of sportsfield area at some 46 locations. Council's sportsgrounds are intensively used by specific sporting groups, schools, casual hirers, and perform a significant role in satisfying recreation need for the general community.

Most of Council's sportsfields however are facing significant pressures. Poorly constructed, the majority of sportsfields do not perform at a level consistent with their need and increasing use is accelerating their decline. Little in the way of proactive maintenance management has been undertaken and facilities incidental to the sportsgrounds (eg irrigation, fences, lighting etc) are significantly run down or do not address safety issue or need.

Staff are currently gathering asset data and analysing conditions at all sportsgrounds, as well as in all other Open Space areas.

This information will provide the basis of assessment and prioritisation of sportsfields for Capital Works Programs. An approximate benchmark of costs to substantially return a sportsfield asset to appropriate condition and develop it such that it may satisfy reasonable community expectation is approximately \$150,000. This figure can vary substantially dependent upon necessary earthworks but will provide a reasonable guide.

## Item 4

S05347  
27 March 2009

A comprehensive process of assessment and prioritisation has been developed that links existing asset condition with demand for that asset to develop a matrix that will identify sites which will provide the highest return for Council and the community. Further, this process has been linked to Council's adopted strategic direction through the inclusion of assessment criteria against adopted policies and plans (eg Sportsfield Strategic Plan, Social Plan, Plans of Management etc) and their adopted principles.

The work required to complete this assessment and prioritisation process is extensive. To ensure that initial works proposed through this process can be completed within the next management plan, should budgetary allocation be made for this program. Initial assessment and planning will be required to be completed for reporting to Council in July 2002. The Sportsfield prioritisation table is as follows:

## L. Tennis Courts

Council has 71 tennis courts across the local government area, which have netted Council reasonable financial returns in the past. These financial returns however have not taken into account a depreciating asset. Subsequently the returns enjoyed by Council have decreased substantially over the last few years and one of the main reasons is an asset that is declining in

## CONSULTATION

Council staff consult regularly with residents and user groups on the priority criteria that is used to develop the programs to advise them of how the programs are developed when they request new or upgraded works.

## FINANCIAL CONSIDERATIONS

The purpose of this report is to assist in determining the priorities for capital and maintenance works.

Council is currently experiencing a number of demands for additional funding which is outside Council's control, such as impacts of the financial crisis, increased payments for employer superannuation payments, likely reduction in rate and planning panel costs. The likely amount based on these issues is approximately \$2.1 million. These funds need to be found from the general revenue area of the capital works. **Attached** is a list of projects proposed for 2009/10 which includes the proposed list of projects to be removed because of the likely funding cuts. The updated list of Capital Works projects for 2009/10 and future years will be included in the report on the Management Plan to be presented to General Committee in late April 2009.

## CONSULTATION WITH OTHER COUNCIL DEPARTMENTS

Consultation has taken place with staff from the Operations, Strategy and Corporate Departments.

## SUMMARY

Council has previously adopted ranking criteria for Capital Works. These criteria were applied to all projects rather than individual categories of work.

The purpose of applying ranking for separate categories of work is to provide for criteria to be established that is specific to the category of work. This then enables Council to identify the high priority works in each category and allocate funding through established reserves.

Given the decision of the High Court on the issue of non-feasance, it is considered appropriate for all Councils and State Government Authorities to establish ranking criteria for its capital works and maintenance works.

This criteria will be used to develop future programs and if adopted by Council, the draft Management Plan report to be presented to the General Committee on 28 April 2009 will contain the proposed future capital works programs based on the adopted criteria.

## RECOMMENDATION

That Council adopts the updated ranking criteria as detailed in the report.
