

CONCEPT PLAN

KISSING POINT VILLAGE GREEN - CONCEPT PLAN - Revision B

- Nature Trail to provide:**
- Variety of materials (mulch/turf/sleepers/boulders/plants etc)
 - Differing access route and exploration area for children

- Junior Discovery Area to provide:**
- Sheltered space
 - Area for slighter older children to branch out safely
 - Native plantings
 - Role playing
 - Balancing, climbing

- Mulch Softfall Areas to provide:**
- Higher level play equipment
 - Sandstone boulder edge for retaining and sitting

- Garden beds to provide:**
- Native planting
 - Softening to the road and adjoining property
 - Define edge of pathway

- Toddler area to provide:**
- Soft level surface
 - Access to bigger kids and cross age play
 - Accessible play equipment
 - Socialising
 - Parent/child involvement
 - Inter generational play

- Dynamic play equipment to provide:**
- Meeting place for children where they can stand, sit and chat while spinning
 - Developing children's motor skills, balance and muscle strength
 - Training social-emotional skills such as turn-taking, tolerance and empathy

- Balancing Play Equipment:**
- A sense of balance for concentrating and even being able to sit still. When playing 'the floor is lava', children also train skills in turn-taking, consideration of others and cooperation.
 - Wobble bridge to be a replacement for existing favourite rope bridge play equipment.

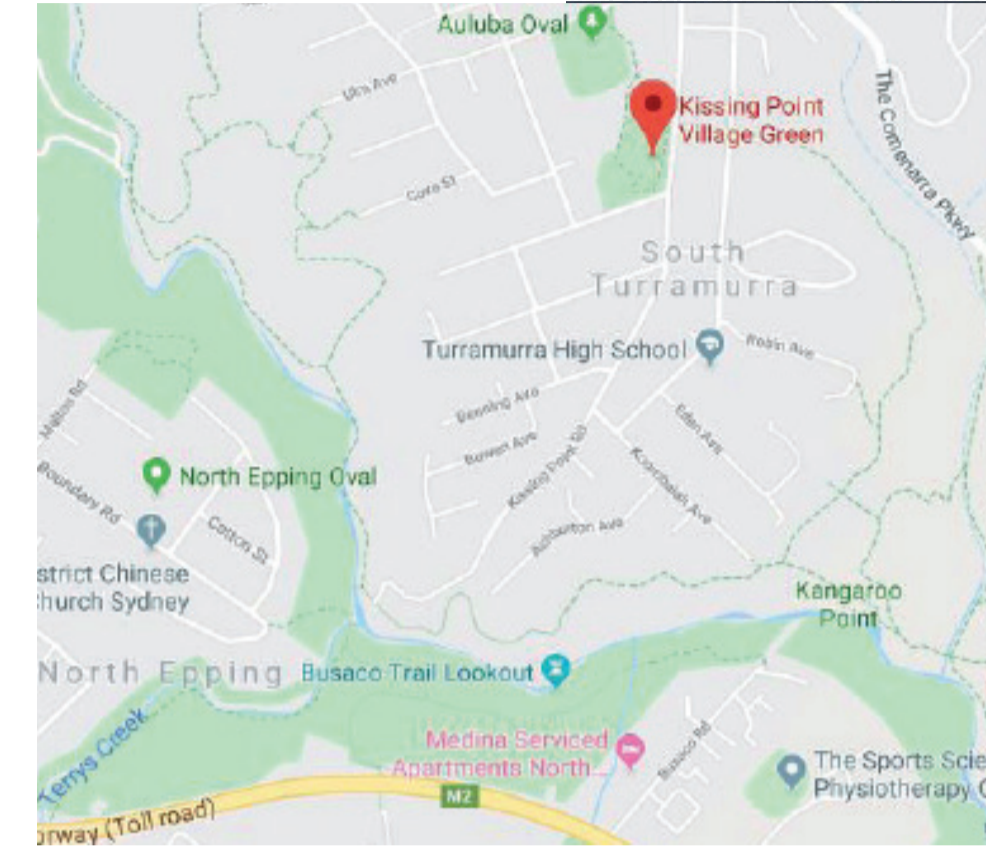

- Carpark Entry Area to Provide:**
- Accessible car space
 - Formalised entry gate with park name
 - Maintenance vehicle access to park

- Traditional Play Equipment:**
- Combined Swings with Toddler & junior seat
 - Nest swing seat
 - Reuse existing rocker

- Upgrade Existing Shelter Area to provide:**
- Accessible picnic tables & BBQ hut
 - Accessible drinking fountain
 - Shelter for picnic/relax space
 - Extend concrete pavement
 - Introduce crushed sandstone paving

- LOCATION PLAN (NTS)

- EXISTING PLAYGROUND

COMMUNITY CONSULTATION:

- Desire to retain and enhance the existing bike track
- Allocation of safe space for toddler play
- Use natural materials in design
- Upgrade existing amenity block
- Upgrade existing shaded BBQ hut & picnic Shelters
- Retain open grassed areas for free play
- Provide drinking fountain & bins
- Provide accessible path from street

UPGRADE
