Fees and Charges

2020 - 2021

Fees and Charges for Goods and Services

In accordance with Section 608 of the Local Government Act, 1993 and other relevant legislation, Council levies a range of fees and charges as contained within this document. The general intention of the fees and charges is to cover the following contingencies:

- Supply of a product, service, or commodity.
- Giving of information.
- Providing a service in connection with the Council's regulatory functions, including receiving an application for approval, granting an approval, making an inspection and issuing a certificate.
- Allowing admission to any building or enclosure.

Council reviews all fees and charges, not subject to statutory control, on an annual basis, prior to finalisation of Council's annual operating budget.

Good and Services Tax (GST)

The attached schedule identifies those goods and services subject to the Goods and Services Tax (GST). The fees/charges shown for those goods and services are inclusive of GST.

Pricing Principles

For details of various methods of pricing which Council has implemented see below. Pricing methods range from full cost recovery to no charge.

PRICING PRINCIPLES

CODE	PRICING BASIS	PRICING PRINCIPLE INCLUDES
F	<p>Full Cost Recovery</p> <p>Council recovers all direct and indirect cost of the service, including depreciation of assets.</p>	<p>The service benefits particular users, making a contribution to their individual income, welfare or profits or a private benefit being provided without any broader benefits to the community. Council has a monopoly over the provision of the service and there are no community service or equity obligations.</p> <p><i>Example of Full Cost Recovery - Application for drainage easement and abandoned vehicle, removal and storage. Standard fee to be paid prior to release of the vehicle</i></p>
P	<p>Partial Cost Recovery</p> <p>Council recovers less than full costs, reasons may include community obligation or legislative limits on charging.</p>	<p>The benefits from provision of the service accrue to the community as a whole as well as individual users. Charging prices to recover full cost may result in widespread evasion. The service promotes or encourages local economic activity.</p> <p><i>Example of Partial Cost Recover - Tree preservation orders and youth program fees.</i></p>
L	<p>Statutory</p> <p>Price of the service is determined by Legislation. Price may or may not recover full cost.</p>	<p>The service is a regulatory or statutory service and where the fee is determined by Council in accordance with a pricing principle prescribed in regulations (e.g. a maximum price). The amount of the fee is prescribed in regulations or determined by the Director General of the Department of Local Government or another authorised authority. Council has no discretion to determine the amount of the fee for a service when the amount is fixed by regulation or by another authority.</p> <p><i>Example of Statutory - Certificates for classification of Council land.</i></p>
M	<p>Market Pricing</p> <p>Price of the service is determined by examining alternative prices of surrounding service providers. Price may or may not recover full cost.</p>	<p>The service provided is in competition with that provided by another Council or agency (private or public) and there is pressure to set a price which will attract adequate usage of the service.</p> <p><i>Example of Market Pricing - Copying of documents.</i></p>
R	<p>Rate of Return</p> <p>This would include full cost pricing in addition a profit margin to factor in a return to Council</p>	<p>The service is a profit making activity and the price paid by users should recover greater than the full cost of providing the service; (a) fees charged are greater than the full cost of the service to act as a disincentive; (b) fee charged for possession, occupation or enjoyment of Council land and air space by Gas, Electricity, Water and Telecommunications.</p> <p><i>Example of Rate of Return – Road restorations</i></p>
Z	<p>No Charge</p> <p>Some services may be provided free of charge and the whole cost determined as a community obligation or may be classed as a public good.</p>	<p>Service provides a broad community benefit. Impractical to charge for service on a user basis. Service is a minor part of the overall operation of Council. The potential for revenue collection is minor and is outweighed by the cost of collection.</p> <p><i>Example of No Charge – Public access internet provision.</i></p>
