About this program

All NSW councils are required to progress the achievement of their Community Strategic Plans through a Delivery Program, based around the term of a council.

The Delivery Program outlines what Council intends to do during its term of office, within available resources, and acts as a point of reference for all principal activities undertaken by Council. Council's statements of term achievements in the Delivery Program link directly back to the long term objectives contained in the Community Strategic Plan 'Our Ku-ring-gai 2038'.

Supporting the Delivery Program is a Resourcing Strategy, which shows how Council will fund and resource its services, projects and programs over the medium to longer term.

In conjunction with the Delivery Program, Council is also required to prepare a one year Operational Plan. This plan details the projects, programs and services that will be undertaken for the 2019 – 2020 year along with a budget showing how Council will fund the plan, a revenue policy, fees and charges and capital works lists. Tasks in the Operational Plan link back to Council's term achievements in the Delivery Program.

To assist the community in understanding Council's programs, both the Delivery Program and Operational Plan are presented in the same document. The exception is Council's annual Fees and Charges, which are presented in a separate document.

Preparation of this Delivery Program and Operational Plan has been informed by the community's long term objectives contained in the Community Strategic Plan 'Our Ku-ring-gai 2038', Council policies and strategies, prioritisation of capital works projects, service delivery standards and income.

Photography

Photographs in this document have been sourced from finalists in the Ku-ring-gai edition of *Monopoly photography competition*. This was a local community supported project to raise funds for local charities. Other featured photos were entrants in the *Capture Ku-ring-gai photo competitions*, photographs taken by staff or from organisational photography shoots.

Thank you to all photographers.

From Mayor Jennifer Anderson

Greater emphasis has been placed on preserving Ku-ring-gai's unique natural and heritage character. This includes strategies for replacing lost tree canopy, increasing housing choice, improving access to public transport and creating more local centre parking.

In June 2018 Council adopted a revised Community Strategic Plan for Ku-ring-gai, containing the community's long term objectives and priorities for Ku-ring-gai over the next 20 years. This followed extensive consultation with residents, businesses and other stakeholders about their needs.

While many priorities have continued on from the previous strategic plan, much greater emphasis has been placed on preserving Ku-ring-gai's unique natural and heritage character. This includes strategies for replacing lost tree canopy, increasing housing choice, improving access to public transport and creating more local centre parking. We are also focused on creating vibrant places in our centres, providing for multigenerational needs and improving community connectedness within a growing and more diverse population.

The Plan gives us an agreed set of priorities for our community. We will continue to advocate strongly to State Government and relevant authorities on behalf of our residents and seek partnerships with other stakeholders to address major issues such as traffic congestion.

Council also adopted a three year Delivery Program that contains projects and actions for this Council to complete during its term to progress the Community Strategic Plan. This is a demanding program given the shorter three year term of this Council, but we have made exciting progress during the first year through the leadership and diligence of Councillors and enthusiasm of all participants.

This revised Delivery Program and Operational Plan 2019-2020 marks the second year of Council's program and continues our focus on advancing major projects while maintaining services and achieving financial sustainability targets. Key projects include:

- Lindfield Village Green completion of the tender process and commencement of construction:
- Lindfield Village Hub awarding of tender to build the Hub;
- St Ives Village Green construction of youth facilities in the recreation precinct;
- Marian Street Theatre completion of design plans;

- St Ives Showground construction of the accessible regional playground;
- Duff and Allan Street park construction of a new local park in Turramurra.

Funding allocated to key capital projects and programs includes:

- \$23.3 million for the Lindfield Village Green project and progression of revitalisation works in our local centres;
- \$13.3 million for upgrades to sports fields, parks and playgrounds;
- \$11.3 million for roads and footpaths;
- \$2.6 million for the natural environment;
- \$3.2 million to improve community buildings;
- \$0.9 million for drainage and stormwater facilities.

Continuing initiatives to support local businesses, encourage investment and expand tourism opportunities will also be a priority during this year.

In addition to the above we will continue to respond to new state government requirements for local strategic land use planning in Ku-ring-gai.

All Sydney councils are required to complete a Local Strategic Planning Statement by the end of 2019, under direction from the NSW Government and the Greater Sydney Commission. The Commission is tasked with responsibility for planning Sydney's growth in the next few decades, with a focus on jobs and housing, the environment and green connections within and between suburbs, local character, heritage and accessibility.

The Local Strategic Planning Statement will set out the vision for land use in Ku-ring-gai, including land use planning priorities generated from economic. social and environmental goals over the next 20 years.

As the first step in the process, the local community was invited to comment on what characteristics make up the uniqueness of Ku-ring-gai from a land use planning perspective.

A review of Ku-ring-gai's existing land use plans, strategic studies and community engagement will be used to put together the draft Statement, which will go on public exhibition in July this year.

As part of the Statement, Council is preparing a housing strategy that will consider future housing needs for Ku-ring-gai as well as a local character study. In addition an employment lands study will be undertaken to provide contemporary information on Ku-ring-gai's employment characteristics and trends. Comprehensive community consultation will be separately undertaken for these studies, which are expected to be completed in 2020.

Ultimately, the Local Strategic Planning Statement will help guide future changes to Ku-ring-gai Council's planning controls – the Local Environmental Plan (LEP) and Development Control Plan (DCP).

Another key issue has been the future of Council's award winning environmental programs which rely on funding from the Environmental Levy. The Levy, which was due to expire in June 2019, was the subject of extensive community consultation in 2018 to determine whether the community supported its permanent continuation at the current rate.

Based on the clear demonstration of community support for continuation of the Levy, Council made an application in February this year to the NSW Independent Pricing and Regulatory Tribunal (IPART) to permanently extend the Environmental Levy. Council was notified in May 2019 that its application was successful.

It is vital that we continue to plan and deliver a range of projects and programs which have a positive impact on our community. Council's revised Delivery Program 2018-2021 and Operational Plan 2019-2020 provides the next instalment in our achievement of agreed long term goals for Ku-ring-gai.

I encourage you to read the document and actively participate in forthcoming community consultation on the future of our wonderful area and community.

Councillor Jennifer Anderson **MAYOR**

A message from the General Manager

We continue to pursue more efficient ways to deliver our services, review our future infrastructure and facility needs and plan to ensure the organisation is financially sustainable into the future.

It gives me great pleasure to present Ku-ring-gai Council's revised Delivery Program 2018-2021 and annual Operational Plan 2019-2020, which details the services, projects and programs that Council will deliver during the coming year.

These activities will also progress the long term objectives and priorities contained in the Ku-ring-gai Community Strategic Plan 'Our Ku-ring-gai 2038', adopted by Council in June 2018.

Council continues to address a number of challenges in planning and delivering its services, projects and programs. They include:

- increasing service demands from a growing population and demographic change
- service level expectations by the community
- limits to Council's financial capacity to maintain, renew and upgrade its assets into the future
- funding required for the recurrent operations of Council and any new initiatives, and
- ongoing local government reforms.

In responding to these challenges we continue to pursue more efficient ways to deliver our services, review our future infrastructure and facility needs and plan to ensure the organisation is financially sustainable into the future.

As effective financial managers we must also ensure that opportunities to reduce expenditure and broaden income streams are captured to increase ongoing financial commitment to improving Council's \$1.35 billion portfolio of assets. In 2019-2020 nearly \$60 million will be allocated to roads and footpaths, sports fields and parks, community buildings and stormwater drainage, and to progress the redevelopment of our local centres.

Council is in a sound financial position. A budget surplus of \$32.5 million was achieved for 2017-2018 after allowing for depreciation and \$5.6 million when capital grants and contributions are excluded. The 2019-2020 budget forecasts an operating surplus of \$30 million after allowing for depreciation and \$10.7 million when capital grants and contributions are excluded.

This is consistent with Council's Long Term Financial Plan which provides a framework to achieve continued operating surpluses and maintain healthy levels of working capital and reserves. In addition, Council's loan borrowing is moderate and manageable, and

will be substantially repaid over the life of the plan from identified sources of repayments in line with Council's funding strategy.

This provides a sound basis for responding to the continued reform of local government. To this end, Council's 2019-2020 budget incorporates prudent fiscal decisions that ensure stability.

Ku-ring-gai Council's ongoing commitment to financial sustainability and effective delivery of services is demonstrated by:

- delivering twelve consecutive years of operating surpluses after allowing for depreciation of Council assets
- a governance structure that facilitates the delivery of the major urban revitalisation projects at Lindfield and Turramurra while providing transparency
- a new internal structure that will make the organisation more streamlined and efficient and will assist decision-making, and
- participating in the NSW Audit Office's development of a whole-of-sector report on NSW Councils' financial performance.

To ensure that Council continues to successfully deliver programs, maintain and upgrade our infrastructure assets, as well as taking on the economic responsibility of delivering major local centre urban renewal projects, we will continue to deliver over 130 services to the community in the most efficient and cost effective manner possible. This will include:

- opportunities for expanding and improving online services that will reduce time and make it easier for our community to interact and engage with Council
- further reducing energy usage across Council buildings and facilities
- further reducing Council's use of materials while increasing opportunities for reuse and recycling
- enhancing the use of digital applications and systems by staff to improve service delivery.

Council regularly undertakes independent research into community satisfaction with Council's services. Our most recent research indicates that 90% of surveyed residents are satisfied with Council's performance across all functional areas. This is a very pleasing result and indicates an improving trend when compared to previous research undertaken over a 5 year period.

Council's environmental programs and initiatives are largely delivered by the Environmental Levy which has been in place since 2005. The Environmental Levy annually funds approximately \$2.7 million of environmental programs and works that would not otherwise be possible within Council's ordinary budget.

The Environmental Levy was due to expire on 30 June 2019, at which time the environmental programs and works reliant on levy funding would cease, if the levy was not renewed. Council resolved to prepare a Special Rate Variation application under section 508(2) of the *Local Government Act 1993* for the permanent continuation of the Environmental Levy at the amount currently paid by Ku-ring-gai ratepayers.

Following comprehensive community consultation and very positive feedback to the proposal, Council made an application for continuing the levy to the NSW Independent Pricing and Regulatory Tribunal (IPART) in February 2019. Council's application was assessed against a set of criteria, including the community consultation conducted.

Council was notified in May 2019 that its application was successful to permanently extend the Environmental Levy at the current rate (5%), commencing on 1 July 2019.

This means that the Levy Program will continue to be delivered across a number of key environmental programs. Details of the programs can be found on the following pages.

This revised Delivery Program and Operational Plan provides details of the services, projects and major programs Council proposes to deliver in 2019-2020. This includes the progression of numerous initiatives to deliver environmental, social and economic benefits for our community. We look forward to delivering on the commitments made to our community and to progress the priorities of the Community Strategic Plan 'Our Ku-ring-gai 2038'.

John McKee

John McKee GENERAL MANAGER

Approval of permanent continuation of Environmental Levy

A Special Rate Variation (SRV) allows a council to increase its general income above the rate peg under the provisions of the NSW *Local Government Act* 1993.

Ku-ring-gai Council's Environmental Levy, an SRV levied at 5% of Council's total rate revenue, has been in place since 2005 and currently funds around \$3 million worth of environmental programs and works each year, to ensure Ku-ring-gai's unique bushland, waterways and urban environment are conserved and maintained.

The Environmental Levy was due to expire in June 2019. At its Ordinary Meeting of 13 June 2017, Council resolved to prepare a new SRV application under section 508(2) of the *Local Government Act 1993* for the permanent continuation of the Environmental Levy at the rate currently paid by Ku-ring-gai ratepayers (5%), commencing on 1 July 2019, subject to community support.

Between July and November 2018 extensive community consultation was conducted on this SRV application, specifically on the need for a permanent continuation of the Environmental Levy; the full impact of the continuing SRV on the various categories of ratepayers; and the environmental programs and works that will be funded should the SRV continue.

Community consultation was conducted through a variety of appropriate engagement methods, to assess the community's support for the continuation of the Environmental Levy, and included:

- Information in the publicly exhibited Community Strategic Plan Our Ku-ring-gai 2038; Delivery Program 2018–2021 and Operational Plan 2018-2019; and Resourcing Strategy 2018-2028
- Community information sessions
- Information sent to all residential and business ratepayers through the rates notice
- Information on Council's website
- Print and social media
- Recruited, representative telephone survey
- Recruited consultation workshop
- Opt-in online and printed survey (using online community engagement platform).

Community acceptance of a permanent SRV for the continuation of the Environmental Levy at the current rate (5%) and the community's ongoing willingness to pay for the environmental programs and works funded by the

Environmental Levy were clearly demonstrated through community consultation.

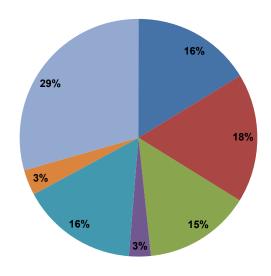

Subsequently, an application was made in February 2019 to the NSW Independent Pricing and Regulatory Tribunal (IPART), which is responsible for assessing and determining local government special rate variations. Council's application will be assessed against a set of criteria, including the community consultation conducted.

Council was notified in May 2019 that its application was successful to permanently extend the Environmental Levy at the current rate (5%), commencing on 1 July 2019.

CONTINUATION OF THE ENVIRONMENTAL LEVY

The Levy program will continue to be delivered across the key areas of energy management; biodiversity and bush fire management; water and catchment management; community engagement and environmental education; business engagement; and sustainable transport and community recreation in natural areas, as follows.

Figure 1: Environmental Levy program budget allocation 2019/20 - 2028/29

- Energy management
- Biodiversity and bush fire management
- Water and catchment management
- Sustainable transport and community recreation in natural areas
- Community engagement and environmental education
- Business engagement
- Project management and administration

Whilst there will be a need to be responsive and adaptive, the Environmental Levy program intends to fund:

Water and catchment management: stormwater harvesting and reuse systems to conserve water and irrigate our sports fields and ovals; works to improve the quality of our creeks and waterways (such as sediment basins; biofilter systems; tree pits; gross pollutant traps and erosion control works); creek restoration projects; flood mitigation measures; condition reviews and renewals/ upgrades of our Water Sensitive Urban Design (WSUD) assets; water efficiency projects and water monitoring of our buildings and facilities; and water quality monitoring.

Energy management and climate change: solar panels; air conditioning upgrades; energy efficient lighting upgrades; plant and equipment upgrades; solar hot water systems; energy efficient street lighting upgrades; energy management systems; the procurement of renewable energy; a strategy to transition our fleet to electric vehicles; and a sustainability data management and reporting system.

Biodiversity management: bush restoration in high value reserves; burns to replicate the natural fire cycle and promote biodiversity; pest species management; projects to enhance biodiversity corridors and Ku-ring-gai's urban forest; environmental planning and monitoring programs; and fauna monitoring and management.

Bush fire management: fire trail and breaks construction and maintenance.

Community engagement and environmental education: sustainability rebates; events and wor

education: sustainability rebates; events and workshops; environmental volunteering programs; the EnviroTube YouTube channel; interpretive signs; advisory services; information campaigns; energy, water and waste audits; community grants; programs to help the community prepare for bush fire, floods and storms and heatwaves; dumping and encroachment prevention in bushland; and native bee hives for residents.

Business engagement: advisory services; sustainability rebates; energy, water and waste audits; and plastic reduction programs.

Sustainable transport and community recreation in natural areas: the creation of cycleways; the construction and maintenance of walking tracks; and the provision of infrastructure for recreation in natural areas.

The essential service functions provided by Environmental Levy funded staff will also continue, ensuring best practice environmental management. In addition to delivering projects and programs, Levy funded staff develop and review a range of environmental policies and strategies; respond to federal and state policy directions and legislative changes affecting Ku-ring-gai; provide input into the preparation of Council's land use planning documents; provide expert environmental guidance and advice within Council and to the community; participate in research partnerships; and prepare and review environmental assessments for all Council projects, ensuring that Council's legislative requirements are met.

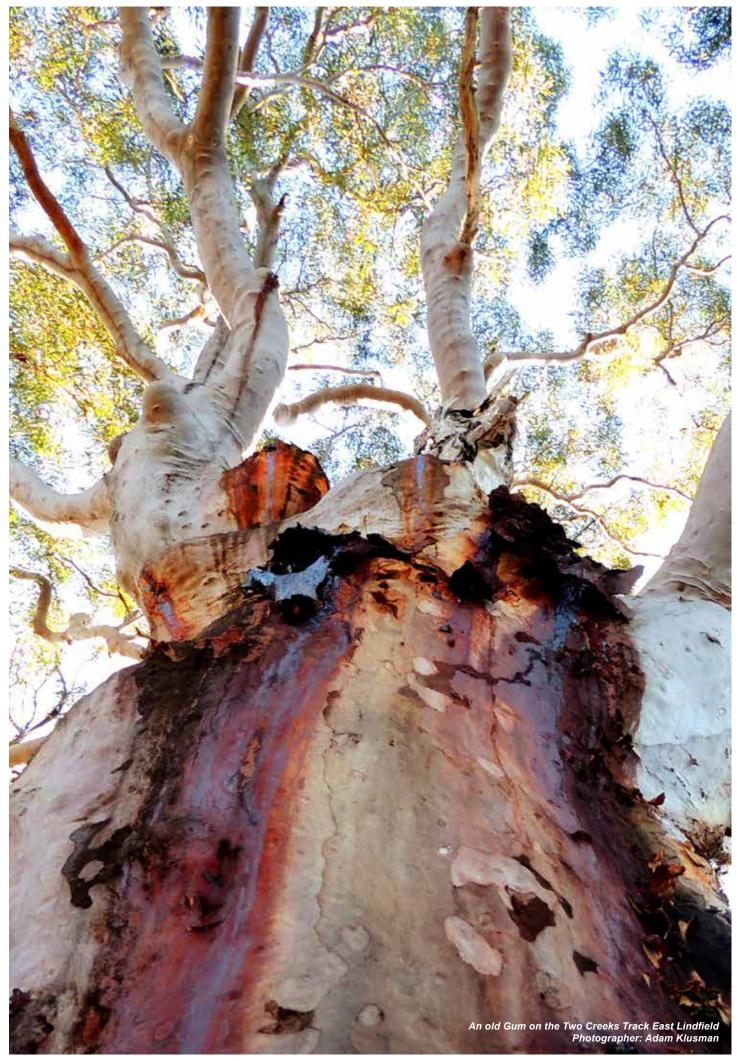

Approval of permanent continuation of Environmental Levy (cont.)

ONGOING BENEFITS OF AN ENVIRONMENTAL LEVY

The Environmental Levy program responds directly to the community's long term objectives in the Community Strategic Plan *Our Ku-ring-gai 2038* and delivers a number of environmental and social benefits for Ku-ring-gai's environment and community, including but not limited to:

- The protection of bushland and local biodiversity
- A reduction in the urban impacts of stormwater on riparian areas
- A reduction in potable water use
- A reduction in waste to landfill
- Improvements to the condition of waterways
- The provision of cycleways and recreational facilities in natural areas
- The control of dumping and encroachment into bushland
- A reduction in energy use and greenhouse gas emissions
- Our community and local businesses living and operating more sustainably
- Our community feeling more connected to nature and with others; and
- Increased community well being.

Major projects

ACTIVATE KU-RING-GAI PROJECTS

Ku-ring-gai Council is leading the revitalisation of the area's local centres through a series of targeted urban renewal initiatives which form part of the award-winning Activate Ku-ring-gai development program. Activate Ku-ring-gai aims to revitalise our local centres in a staged program of urban renewal and redevelopment which represents years of conscientious work and close involvement with our community.

Ku-ring-gai's local centres include Turramurra, St Ives, Gordon, Pymble, Lindfield and Roseville. Revitalising these centres has been identified as long term goals in Council's Community Strategic Plan. They are also included in Council's long term Resourcing Strategy and the Delivery Program 2018-2021 which sets out Council's budgets and actions for each financial year.

A governance and resourcing framework is being implemented for major projects to strengthen Council's capacity to deliver its property development program. Key aspects of the framework are:

- A Councillor's Major Projects Consultation Forum
- An independent Major Projects Advisory Committee
- An internal Major Projects Steering Committee.

These will enhance oversight, and bring greater expertise to decision making for the major projects.

A new Property Development and Investment Policy has been adopted by Council to provide a formal structure for decision making and due diligence when undertaken for major projects. Additional resourcing is also being allocated to the newly created Major Projects section to accelerate the progress of these important projects.

► Lindfield Village Hub

Council is committed to creating a liveable and connected local centre for residents and visitors of Lindfield. Over recent years, Council has led a program of community and stakeholder engagement to ensure the development delivers social, economic and environmental dividends for generations to come.

The master planning process for Lindfield Village Hub identified a unique solution for the steeply sloping site, located on Council owned land on the western side of the Lindfield Local Centre. It is positioned behind the row of main street style shopfronts that have defined much of the Pacific Highway corridor for many years.

The 1.3 hectare site will deliver a mixed use precinct with community buildings that will provide library and community spaces. A new urban plaza and park will provide a communal meeting place with a library/community centre, outdoor cafes, restaurants and eateries. A supermarket and supporting retail shops will also be provided on the site. New apartments will provide homes for young families and our ageing population. The development will be underpinned by a basement car park providing short term and commuter parking.

Council and its advisors continue to develop a business case that will ensure the project is financially viable and operationally self-sustaining throughout the life of the project, therefore protecting Council's long term financial sustainably. In 2018/19, Council conducted the first part of a two stage tender process to identify a development partner for the site. In February 2019, five firms that had submitted an Expression of Interest were advised that they would be invited to submit a tender for the project.

Throughout the development period, Council will continue important negotiations with Roads and Maritime Services in relation to traffic, transport and pedestrian movement around the Lindfield Local Centre, and Transport for NSW for the funding of 140 commuter car parking spaces currently proposed to be located within the basement level of the new development.

► Lindfield Village Green

Lindfield Village Green is a project developed out of Council's award winning Open Space Acquisition Program.

The aim of the program is to deliver new local parks and public plazas in areas where residential densities and population are increasing. In the Ku-ring-gai local government area these open space opportunities are in short supply and Council's options were to acquire existing residential land or to develop its own land to create new open space.

The project will transform the existing Council owned car park on Tryon Road into a contemporary village green by relocating the existing public car parking underground. This will free up the surface and create a new public plaza and park. Also included will be a pavilion incorporating a café or restaurant, public toilets as well as elevator and stair access to the basement car park in order to activate the space for longer periods during the evening.

Major projects (cont.)

In the same spirit, with the NSW Government wishing to provide commuter car parking at Lindfield, the opportunity exists for one level of car parking to be funded by the NSW Government and dedicated for commuter car parking.

The Village Green has been designed for social gatherings and easy pedestrian and bicycle movement through the plaza with connections to the train station.

The Village Green will play a central role in community life for Lindfield residents, business people, commuters, shoppers and visitors. The project is striving for high environmental ratings by showcasing water sensitive

urban design, water capture, storage and reuse, and water conservation systems.

Planned as an economic driver for the revitalisation of the eastern side of the Lindfield Local Centre the project aims to generate a range of property investment and business development opportunities for properties adjoining the new Village Green.

A Development Application (DA) for the Village Green was approved by the Sydney North Planning Panel in August 2018. Design and documentation, in preparation to tender for construction, is planned to be completed by the middle of 2019 with construction expected to start shortly after that.

► Turramurra Community Hub

Turramurra Community Hub is part of a vision to revitalise the Turramurra Local Centre and provide economic and social benefits to the community. The Hub will be a mix of community facilities, open space, residential and retail uses, all designed to breathe new life into the Turramurra Local Centre and promote the wellbeing of current and future generations of Ku-ring-gai residents. The Hub comprises the precinct between the railway line, Ray Street and the Pacific Highway.

Following extensive community consultation, Council has adopted a preferred masterplan incorporating:

- A new local library
- A new multi-purpose community centre
- A new park
- A new town square
- Improved streetscapes, pavements and road infrastructure
- New housing
- New supermarket and speciality shops
- New parking amenity.

In consultation with the community, Council developed a masterplan for the site in 2016 and following public exhibition and several adjustments, Council resolved on 7 February 2017 to adopt the masterplan. Council also adopted a future local centre traffic and transport strategy and undertook rezoning and reclassification of the Council-owned land to support the masterplan.

The adopted masterplan involves land owned by both Council and private parties including the Coles Group. During 2015 and 2016, Council undertook consultation with Coles to investigate the possibility of entering into an agreement with Coles.

Since adoption of the masterplan, Council has proceeded to prepare a detailed business case in support.

► Gordon Cultural and Civic Hub

Planning for a civic and cultural hub in Gordon commenced in early 2015 when a series of background studies were prepared including a Cultural Needs Analysis for the local government area.

In February 2016, the background studies were reported to Council with a recommendation to commence the masterplan phase. At that stage, Council resolved to defer the project due to the uncertainty surrounding Council amalgamations.

Continued interest from the development sector in Gordon, particularly the retail market, prompted Council to reconsider its position and on 22 November 2016, Council resolved to recommence the master plan process for a cultural and civic hub in Gordon.

Council is currently reviewing land use options and financial feasibility for the proposed Gordon Cultural and Civic Hub.

► Marian Street Theatre

In June 2018, Council included the renewal of the Marian Street Theatre, Killara in its Delivery Program 2018-2021 and Operational Plan 2018-2019 with the project due for completion by 2021.

The theatre was built in the early 1900s and converted to a 280 seat theatre in the mid 1960s which operated as a theatre until 2013. In 2013, the building was closed due to non-compliance with the Building Code of Australia standards. Council commissioned studies in relation to the future of the theatre including assessing cultural facility needs in Ku-ring-gai and for the theatre, the condition of the building's structural and theatrical infrastructure and extensive community consultation.

The refurbishment of the theatre will include multipurpose performing spaces, a state of the art rigging system, new studios and reception area with an additional lift for car park access.

Following consideration of a feasibility report and draft business case for the project in March 2019 Council approved a capital funding budget of \$10.5 million for refurbishment of the theatre and commencement of tender documentation for the procurement and award of architectural design services.

Responding to state and regional plans

Within the Northern Sydney Regional Organisation of Councils (NSROC) Council continues to deal with common issues, particularly those that cross boundaries, such as planning, environment, transport, sustainability, procurement and waste management. We also work with relevant departments and agencies of the state and federal governments and neighbouring councils on our overlapping responsibilities.

Over the next few years, Council and the community will need to respond to new plans for Greater Sydney and the Northern Sydney region. This will require well researched and measured assessment of policy directions for our area and continued proactive advocacy and participation for our community in regional and state planning.

A new plan for Greater Sydney

In 2015, the NSW Government established a new planning body, the Greater Sydney Commission (GSC), to lead metropolitan planning for the Greater Sydney region.

The Plan A Metropolis of Three Cities - The Greater Sydney Region Plan, which came into effect in 2018, proposes to better coordinate planning and growth across Greater Sydney. To assist this objective the plan has been prepared concurrently with Future Transport 2056 and the State Infrastructure Strategy to align land use, transport and infrastructure planning.

The plan aspires to a 30 minute city, where jobs, services, and quality public spaces are in easy reach of people's homes. It also sets targets for new housing, with a range of types, tenures and price points to improve affordability. New jobs will be promoted and the plan values Greater Sydney's unique landscape, natural resources and green infrastructure.

► A plan for Northern Sydney

The Greater Sydney Commission established six planning districts in metropolitan Sydney as part of the planning process. The North District comprises the local government areas of Hornsby, Hunters Hill, Ku-ring-gai, Lane Cove, Northern Beaches, Mosman, North Sydney, Ryde and Willoughby.

District Plans sit in the middle of the hierarchy of metropolitan, district and local planning for the Greater Sydney region, inform local council planning and influence the decisions of state agencies.

The North District Plan, which came into effect in 2018, contains four key themes of infrastructure and collaboration, liveability, productivity and sustainability with objectives focussed on the following:

- Enhancing the role of the Sydney metropolitan Eastern Economic Corridor
- Supporting job growth in strategic centres
- Sustaining local centres to provide jobs, services and amenity
- Providing fast and efficient transport connections to achieve a 30 minute city
- Retaining and managing industrial and urban services land
- Creating and renewing great places while protecting heritage and local character
- Improving walking and safe cycling ways
- Enhancing foreshore access to Sydney Harbour and the district's waterways
- Enhancing open spaces, and increasing urban tree canopy
- Retaining the environmental, social and economic values of the Metropolitan Rural Areas
- Protecting and enhancing the district's unique natural assets including waterways, coastlines and bushland.

In response to these new plans, Ku-ring-gai Council will be preparing evidence based research to assist in guiding the preparation of new and updated planning controls and policies to cater for the future growth in housing, employment, transport and local services required under the plans whilst working to maintain Ku-ring-gai's unique landscape and heritage character.

Our investigations and plan preparation will be undertaken in collaboration with the Greater Sydney Commission, our community and the relevant state government agencies. The new plans will be prepared over the next two year period.

PLANNING LEGISLATION CHANGES

In early 2017, the Minister for Planning placed on public exhibition a proposal to update the *Environmental Planning and Assessment Act 1979* (EP&A Act) through a series of significant amendments. The NSW Government's stated goal was to build community confidence in the planning system by:

- Implementing a simpler and clearer EP&A Act and planning system
- Enhancing community participation
- Strengthening upfront strategic planning
- Streamlining assessment processes
- Delivering greater probity and integrity in decision-making.

Council prepared a submission in response to the public exhibition, which supported specified amendments and raised concerns with other aspects of the proposed legislative and regulatory changes.

On 1 March 2018, the updated *Environmental Planning* and Assessment Act 1979 came into effect. The new amendments are being implemented in a staged manner from early 2018 to mid-2020, to ensure all stakeholders can prepare for the changes, supported by appropriate guidance, templates and other resources provided by the NSW Government.

The new features of the updated EP&A Act 1979 include:

- Community participation plans Council is required to prepare a community participation plan which sets out when and how Council will engage with the community on planning matters.
- ▶ Local Strategic Planning Statement Council is required to prepare a Local Strategic Planning Statement which will set out the 20 year vision for land use in the area, the special character and values that are to be preserved and how change will be managed in the future. The statements will align with regional and district plans, as well as Council's priorities in the Community Strategic Plan.

- ▶ LEP Check Council is required to undertake regular LEP Checks to ensure they remain responsive to current strategic planning objectives and local matters, such as demographic changes or infrastructure investment.
- ► Ku-ring-gai Local Planning Panel (formerly Independent Hearing and Assessment Panels) From 1 March 2018 independent Local Planning Panels are now mandatory for Councils in Greater Sydney. Council has established a panel of independent experts which will now determine Development Applications that are categorised as sensitive or complex.
- ➤ Standard Format Development Control Plans (DCPs) – The NSW Government will be establishing a standard, online format for DCPs to improve consistency across Councils.

Part 1: Introduction

The Delivery Program and Operational Plan is divided into three parts.

PART 1 - INTRODUCTION

PART 2 - THE PLAN

This section outlines the three year term achievements that Council will undertake to progress the Community Strategic Plan 'Our Ku-ring-gai 2038', along with one year actions that Council will complete during the coming year.

The actions have been developed against each of the six themes in the Community Strategic Plan:

- 1. Community, People and Culture
- 2. Natural Environment
- 3. Places, Spaces and Infrastructure
- 4. Access, Traffic and Transport
- 5. Local Economy and Employment
- 6. Leadership and Governance

PART 3 - FINANCE

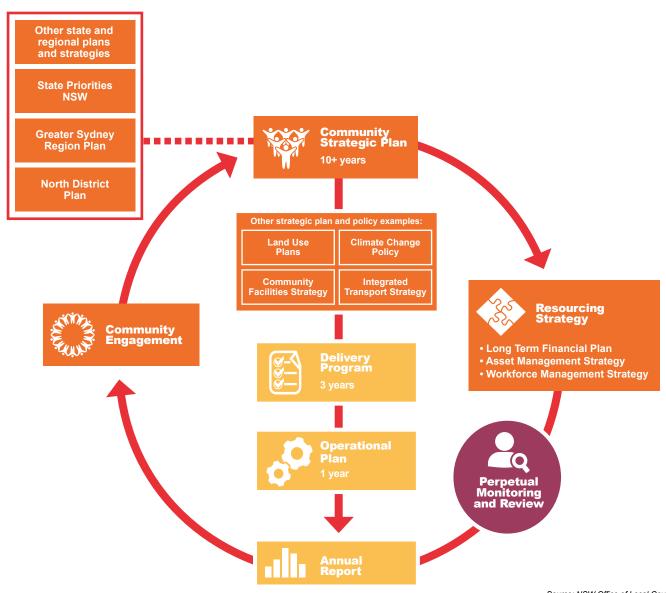

This section contains Council's financial management framework, budget, revenue policy, capital works program and operational projects for 2019 - 2020. Council's Fees and Charges 2019 - 2020 are detailed in a separate document. All integrated planning and reporting plans are available on Council's website, four libraries and the Customer Service Centre in Gordon.

Integrated planning and reporting framework

The NSW Government introduced the Integrated Planning and Reporting Framework in 2009 to assist councils in delivering their community's vision through long, medium and short term plans. The purpose of the framework was to formalise best practice strategic and resource planning across NSW councils to ensure a more sustainable local government sector. In 2008, the Ku-ring-gai community and Council together developed a vision and set of principles to guide future strategic planning and directions for Ku-ring-gai.

The vision and principles formed the basis of Ku-ring-gai's first Community Strategic Plan. The vision and principles continue to be relevant to Ku-ring-gai and its community today, and are retained in Council's current Community Strategic Plan.

Source: NSW Office of Local Government – Integrated Planning and Reporting Framework. Website: olg.nsw.gov.au

Delivering the vision

The Integrated Planning and Reporting Framework requires Council to report regularly on its progress towards the achievement of community objectives through Council's Delivery Program and one year Operational Plan.

► Delivery Program 2018-2021

The Delivery Program 2018-2021 is Council's commitment during its term of office. It identifies, through term achievements, how Council is going to work towards achieving the community's vision, long term objectives and priorities over the three years. It outlines the services, initiatives, programs and projects it is committed to delivering, how Council resources will be allocated and it is linked to the Community Strategic Plan through term achievements identified under the six theme areas.

► Operational Plan 2019-2020

The Operational Plan is developed annually and outlines the details of what Council will deliver for its community along with any required changes. It incorporates Council's Budget, Capital Works Program, Statement of Revenue Policy and Fees and Charges for the financial year.

Our stakeholders

While Council has a number of roles in progressing the long term objectives of the Ku-ring-gai community it does not have full responsibility for implementing or resourcing all of the community long term objectives identified in the Community Strategic Plan and detailed in Council's Delivery Program and annual Operational Plans.

Other stakeholders, such as state agencies, non government organisations, businesses, community groups and individuals also have an important role to play in delivering these outcomes. This can be as contributors of ideas and views on proposed projects or service levels, partners in delivering specific outcomes, or delivering outcomes on behalf of Council. Stakeholders are listed against the long term objectives within Council's Community Strategic Plan.

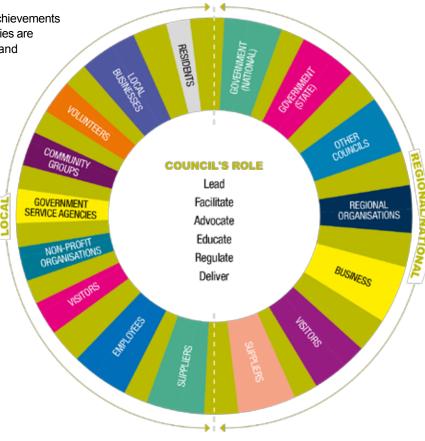

► Principal activities

The themes, long term objectives and term achievements are the platform from which all Council activities are generated to ensure they are responding to, and meeting, community needs and aspirations.

Council activities are detailed in the Delivery Program, Operational Plan and

Resourcing Strategy.

Performance monitoring and reporting

Integrated planning and reporting places a strong emphasis on the community being regularly informed of Council's progress in achieving the community's vision and long term objectives. This is through the delivery of effective and efficient services, capital and operating projects, programs and actions. The following table summarises Council's plans and responsibilities for review and reporting during 2019-2020:

Planning and delivery	Review and reporting	
Community Strategic Plan – Our Ku-ring-gai 2038 ■ 6 themes, 30 long term objectives	An End of Term Report is presented to councillors in the year of an ordinary council election, summarising progress implementing the Community Strategic Plan during a council's term.	
Resourcing Strategy 2019-2029 Long Term Financial Plan 2019-2029 Asset Management Strategy 2019-2029 Workforce Management Strategy 2019-2029	The Resourcing Strategy is reviewed and updated annually.	
Delivery Program 2018-2021 ■ 56 term achievements	Quarterly progress reports are presented to Council on Council's adopted budget including progress and expenditure on capital and operating projects and Council services. Progress on Operational Plan tasks is reported internally*.	
Operational Plan 2019-2020		
 205 one year tasks (projects, programs, actions, services) 	Biannual progress reports are presented to Council on progress against one year tasks, Council's term achievements and performance indicators.	
	An Annual Report is published including Council's audited Financial Statements, statutory reporting and a summary of achievements and challenges during the financial year, assessed against what Council said it would do.	

^{*} Quarterly progress reports are also presented to Council on selected capital projects.

Ku-ring-gai – our place, our people

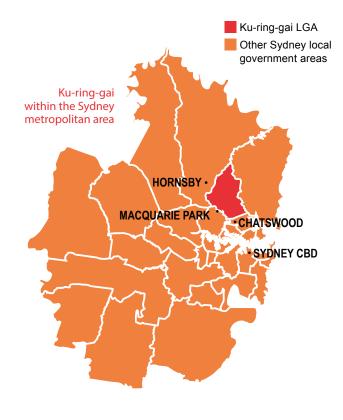

Ku-ring-gai is an established local government area (LGA), 85 square kilometres in size, located 16 kilometres north of the centre of Sydney CBD.

Our name 'Ku-ring-gai' is a derivation of the name of the Guringai people, the traditional Aboriginal owners of the land of which the Ku-ring-gai local government area is a part.

OUR LANDSCAPE.....

The area's unique natural landscape is due to its elevated position in Sydney's north, high rainfall, alluvial soils, deep gullies, 177kms of waterways and creeks and three major water sub-catchments feeding into Sydney Harbour and the Hawkesbury River Estuary.

The area adjoins three National Parks (Kuring-gai Chase, Garigal and Lane Cove) and contains significant urban forests and tracts of local bushland as well as a visually significant tree canopy across both natural and urban areas. These landscape features give the area distinctive natural beauty and differentiates Kuring-gai from other parts of Sydney.

OUR UNIQUE BIODIVERSITY

Known as the 'Green Heart' of Sydney, Ku-ring-gai contains a diverse natural habitat regarded as the last remaining areas of biodiversity significance in the Sydney metropolitan area. This includes:

- More than 150 bushland reserves covering 1,150 hectares
- Nationally significant ecological communities
 including remnant Blue Gum High Forest
 and Sydney Turpentine Ironbark Forest
- Over 800 recorded native plant species and more than 400 species of native animals
- A 99 hectare bio-banking site comprising three reserves at Rofe Park, Sheldon Forest and Comenarra Creek Reserve.

3 OUR CONNECTED URBAN VILLAGES.....

Historically, Ku-ring-gai's urban areas developed as a series of villages along the main ridgelines, each with their own identity, and always bounded by or close to large tracts of natural bushland, creek systems and national parks. While subdivision and residential development have connected the villages into larger suburbs over time, their distinct characteristics still largely remain intact. Today Ku-ring-gai includes 17 suburbs, most with neighbourhood centres and 7 larger local centres (Roseville, Lindfield, Gordon, Pymble, St Ives, Wahroonga, and Turramurra). Each suburb has its own unique character reflecting the local natural bushland, heritage conservation areas or more recent post war development.

The physical appearance of Ku-ring-gai, the connectedness of green leafy areas encompassing both public and private lands and the physical location of urban areas within a well-defined geographic boundary, have been critical contributory factors to a sense of place.

4

OUR CULTURAL HISTORY AND DIVERSITY

► Aboriginal heritage

The Guringai people were the original inhabitants of the land now encompassed by Ku-ring-gai LGA. The Guringai people used sustainable practices to preserve the area's natural diversity. They have left behind many traces of their habitation including middens, petroglyphs (rock drawings or carvings) and remains of shelters. Up to 650 Aboriginal heritage sites may have existed within the Ku-ring-gai LGA. While 101 recorded sites exist in the LGA, over double that number are believed to remain.

► Our bushland legacy

European settlement in Ku-ring-gai began in the early 1800s. Early settlers also recognised the significance of the natural bushland, its important place in communities and its health benefits for a growing Sydney. They advocated strongly for the retention of bushland reserves, and set aside land for the reserves, parklands and recreation areas that Ku-ring-gai is renowned for today.

► European heritage

Ku-ring-gai is the birthplace of the National Trust of Australia (NSW) and has traditionally valued its significant built heritage with over 987 heritage items and 52 heritage conservation areas within a well-defined compact urban area. In addition, over 3939 properties are within Ku-ring-gai's Heritage Conservation Areas, or approximately 10% of all properties.

► Our community diversity

Many residents who have made Ku-ring-gai their home, were born or have recent ancestry in over 100 overseas countries. This is a clear indication of the cultural history and diversity of our present community. (ABS, Census, 2016)

5 OUR STRONG RESIDENT PARTICIPATIONANDADVOCACY

The village nature of our suburbs created close knit and self-sufficient communities with a strong connection to the area. Over time this has evolved into strong resident participation in local organisations, cultural pursuits, sport and leisure activities, volunteering and events as well as a willingness to advocate for and preserve the area's unique natural and historical assets.

6

OUR DIVERSE LOCAL ECONOMY······

Ku-ring-gai has a diverse and vibrant local economy comprising:

- Seven local centres providing mixed food, retail and professional services
- A business park accommodating commercial and service activities
- A large education sector focused on early learning, primary and high schools
- A large medical and health care sector including two hospitals
- A highly educated workforce mostly in professional, scientific and technical service industries
- A thriving small and medium size business sector.

Community engagement

Ku-ring-gai has an active and engaged community. Our residents and local stakeholders wish to participate in, and inform Council decision-making, to ensure the delivery of high quality services and assets for the community.

ENGAGING WITH OUR COMMUNITY

Council ensures engagement with the community is equitable and accessible.

To do this, Council employs a range of methods to connect with our local stakeholders including:

- Proactive communication and reporting
- Community meetings, forums, workshops and information sessions
- Innovative web based tools such as online forums and surveying
- Reference committees to bring together subject matter experts and interested participants
- Large scale and demographically representative summits for major planning initiatives.

Engagement and consultation includes a multi-modal approach to communications and engagement. This can include special events, have your say pages on the website, forums, workshops, telephone surveys, stakeholder meetings, online and hard copy surveys and face to face availability of staff.

ADVISORY AND REFERENCE COMMITTEES

To assist in the decision making process and the operation of Council, advisory and reference committees may be established for a period of time to provide advice, assist in managing facilities or services and perform other functions. These groups often include members of the community as well as some or all councillors. As part of the decision making process, recommendations made by these formal and informal forums may be referred to an ordinary meeting of Council or general committee of Council for a decision. Advisory and reference committees include:

► Audit, Risk and Improvement Committee

The Audit, Risk and Improvement Committee includes councillors, independent external members as well as non-voting senior staff, other councillors and Council's external auditor. The committee provides independent assurance and assistance to Council on risk management, internal audit, governance, and external accountability responsibilities.

► Flood Risk Management Committee

The Flood Risk Management Committee includes councillors, residents, and representatives from business or industry bodies. In addition, the committee has non-voting representatives from the NSW Office of Water, Department of Planning and Environment, NSW Police, State Emergency Services, Sydney Water, Roads and Maritime Services and other ex-officio members.

The Committee is a technical review committee established under the NSW Government's Flood Prone Land Policy and has an advisory role to Council. The Committee acts as a focus and forum for discussing differing views and objectives on technical, social, economic and environmental matters for floodplain management and flood risk.

► Heritage Reference Committee

The Heritage Reference Committee includes councillors, a community representative and representatives from the National Trust Australia, Australian Institute of Architects and the Ku-ring-gai Historical Society. The committee provides advice to Council on heritage matters as well as promoting an understanding and appreciation of heritage through specific activities and events.

Major Projects Advisory Committee

The Major Projects Advisory Committee was established in 2018 to provide independent advice to Council in relation to property development, land acquisition and disposal activities. The Committee comprises of up to five independent members.

Major projects are defined as those projects undertaken by Council with a value of \$5 million or more. Currently, these major projects include, but are not limited to, the renewal of the Lindfield, Gordon and Turramurra local centres as well as the renewal of Marian Street Theatre.

► Ku-ring-gai Traffic Committee

The Ku-ring-gai Traffic Committee is a technical body including representatives of Council, NSW Police, Roads and Maritime Services and the local Member of State Parliament.

The Committee is not a committee of Council, being established under delegation of the Roads and Maritime Services. As such, the Committee's role is to consider and advise Council on traffic related matters.

KU-RING-GAI LOCAL PLANNING PANEL (KLPP)

From 1 March 2018, the NSW Minister for Planning made it mandatory for Local Planning Panels to operate in the Greater Sydney region. The Minister for Planning has set out the types of development applications to be determined by the KLPP. The KLPP also provides advice on significant land use planning proposals to Council.

Councillors no longer determine development applications, which will be determined by either the KLPP, Council staff or the relevant regional planning panel (Sydney North Planning Panel). Membership of the panel includes an external chairperson, two expert panel members and four community members.

Community democracy

Ku-ring-gai Council is a public statutory body incorporated under the Local Government Act, 1993. The Act sets out principles to provide guidance to Councils to carry out their functions in a way that facilitates local communities that are strong, healthy and prosperous.

COUNCIL'S ROLE

Council has an over-arching custodial role for the shared vision and aspirations of the Ku-ring-gai community. This includes caring for the environment, our people and places. Council has a number of roles in progressing the long-term objectives of the Community Strategic Plan. Through its Delivery Program and one year Operational Plan they include:

► Lead

Council can act to draw together diverse interests and strive towards achieving common goals for Ku-ring-gai. Council also acts as a role model for others, through its own actions, strategic organisational responses and way of doing things.

► Facilitate

Council can assist in the formation of partnerships aimed at promoting the area and achieving the plan's long term objectives as well as assisting with interaction between stakeholders and community groups.

▶ Advocate

Council seeks to improve services, facilities and opportunities for Ku-ring-gai and its communities by lobbying agencies and other levels of government. Council can also articulate Ku-ring-gai's long-term vision for its area to others and the opportunities that it presents for investment in the area.

▶ Educate

Council can play an important role in educating the community and other stakeholders on important objectives such as sustainability, sound environmental management practices, quality urban design and alternative transport options. Opportunities also exist for Council to explain the community's vision and how it will be progressed.

▶ Regulate

Council has a statutory responsibility to implement legislative provisions such as health and safety controls, development assessment controls, tree preservation, energy and water reduction measures, waste management, environmental management and other state government requirements.

▶ Deliver

Council has a vital role in delivering the services needed by the community, and ensuring that the community and Council's resources are responsibly managed. Council's role as a service provider aims to assist in building the long-term sustainability of the area.

COUNCIL'S RESPONSIBILITIES

The Local Government Act, 1993 sets out guiding principles for councils in carrying out their functions to facilitate local communities that are strong, healthy and prosperous. General principles include:

- Providing strong and effective representation, leadership, planning and decision-making
- Providing the best possible value for residents and ratepayers
- Planning strategically, using the Integrated Planning and Reporting Framework, for the provision of effective and efficient services and regulation to meet the diverse needs of the local community
- Applying the Integrated Planning and Reporting Framework to achieve desired outcomes and continuous improvements
- Working co-operatively with other councils and the State Government to achieve desired outcomes for the local community

- Managing lands and other assets so that current and future local community needs can be met in an affordable way
- Working with others to secure appropriate services for local community needs
- Acting fairly, ethically and without bias in the interests of the local community
- Being responsible employers and providing a consultative and supportive working environment for staff.

DECISION MAKING

Ordinary Council meetings are held twice a month with committees meeting on a regular basis. Residents are welcome to attend these meetings. The dates of the meetings are available on Council's website and published in the local newspaper. Extraordinary Council Meetings are called at short notice from time to time to deal with particular issues. The dates of these meetings are published on our website and in the local newspaper (if timeframes permit).

The mayor and councillors can also raise matters to be debated at Council meetings through mayoral minutes, notices of motion and rescission motions. A decision is made when a majority of councillors vote in favour of a motion.

All Council meeting proceedings are recorded. This is one important way of making our decision making processes transparent. Council meeting business papers are available to the public on Council's website, at our Customer Service Centre and all libraries on the Wednesday prior to the meetings and in the Council Chamber on meeting nights. Meeting minutes are also available on Council's website.

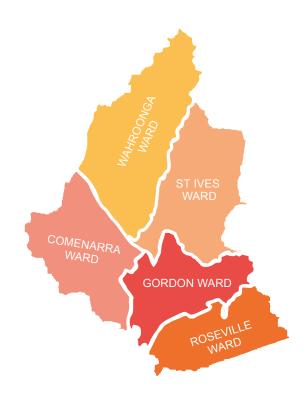

COUNCIL ELECTIONS

The NSW Government deferred 2016 local government elections to 9 September 2017 for those councils previously subject to merger proposals, including Ku-ring-gai Council. As a result the current Council's term will be a shorter three years with the next council elections to be held in September 2020. Under amendments to the *Local Government Act, 1993* the Mayor was elected in September 2017 for a two year term. The Mayor is elected by Councillors.

Our councillors

The Ku-ring-gai Council local government area is divided into five wards - Roseville, Comenarra, Gordon, St Ives and Wahroonga with each represented by two Councillors. The Mayor is elected by Councillors.

Our organisational leadership

In 2015, Council adopted four corporate values to guide the organisation's delivery of the Community Strategic Plan, Delivery Program and Operational Plan. These are:

- · We act with integrity in everything that we do and say
- We make transparent, ethical and consistent decisions that support the vision of Council

- We are considerate towards others ensuring fairness, dignity and equality
- We practice and encourage transparent communication

- We are accountable for our decisions
- We take responsibility for the outcomes of our choices, behaviours and actions

- We work together as a team to achieve our full potential
- We have the insight and passion to lead Council into the future

LEADERSHIP TEAM

Council is made up of six departments with the General Manager and Directors making up the executive management team. The General Manager is responsible for the day to day management of the departments, overall operation of the organisation and for ensuring the implementation of decisions of Council. The Directors assist the General Manager in the development of long term strategic plans and their delivery, whilst ensuring the organisation is meeting its obligations.

WORKFORCE

Council employs a range of full time, part time and casual employees in a diverse range of service areas.

► Workforce total headcount by employment type as at 30 June 2018

Employment type	Ku-ring-gai Council 2018
Full time	361
Part time	65
Total full and part time	426
Plus casuals	179

The median age of our workforce is 47 years with 51% of our employees aged between 45 and 65 years, and 43.4% per cent of employees aged less than 44 years.

The gender profile of our workforce is 45% female and 55% male with employee positions spread across employment bands.

► Workforce % by age and gender as at 30 June 2018

Age	Male	Female	Total No.	Total %
15 -24	6	4	10	2.35
25 - 34	37	45	82	19.25
35 - 44	52	41	93	21.6
45 - 54	63	53	116	27.23
55 - 64	64	40	104	24.65
65 +	12	9	21	4.63
Total*	234	192	426	100%

Consistent with the changing population trends in the Ku-ring-gai local government area and Greater Sydney region the organisation's demographic profile increasingly includes employees who were born overseas or who speak a second language.

► Total % of women in senior positions (Band 6 and above) from 30 June 2013 to 30 June 2018

Financial Year End	Total workforce	Women Band 6+ % of total workforce	Men Band 6+ % of total workforce
2018	426	10.8	16.9
2017	438	10.3	17.1
2016	430	11.9	16.7
2015	440	10.9	16.1
2014	441	9.9	17.2
2013	428	9.1	15.8

The average years of service per staff member is nine years indicating that Council remains an attractive employer for prospective applicants.

► Workforce total headcount by years of service and department as at 30 June 2018

Department	Average years' service with Council	No of people in department
Civic	17.2	5
Community	6.4	112
Corporate	8.4	54
Development and Regulation	8.6	69
Operations	12.2	141
Strategy and Environment	5.8	45
Total Council	9	426

^{*} Figures are rounded.

SERVICES

Below is a list of services Council provides by theme:

Theme 1: Community, People and Culture

Children's services, youth services, aged services, disability services, cultural development, community events, libraries and art centre, community health and safety programs, healthy and active lifestyle programs, wellbeing programs, community facilities and halls management, sports grounds and parks bookings, and emergency management support.

Theme 2: Natural Environment

Environmental Levy programs and initiatives, corporate sustainability program, biodiversity and bushland management programs, bush fire management program, water conservation, reuse and water quality management program, environmental education and sustainable living programs, environmental volunteering program, climate change adaptation program, energy management program, waste management, recycling and education.

Theme 3: Places, Spaces and Infrastructure

Urban design and planning, heritage planning, development assessment, development compliance, regulation and compliance, open space projects, landscape design, engineering design, civil works and maintenance, drainage works and maintenance, strategic asset management, building asset works and maintenance, parks and sports field works and maintenance, fitness and aquatic centre, tree preservation and maintenance.

Theme 4: Access, Traffic and Transport

Traffic and transport strategy and research, road safety, engineering design, civil works and maintenance.

Theme 5: Local Economy and Employment

Economic and social development, marketing and events coordination.

Theme 6: Leadership and Governance

Customer service, financial management, integrated planning and reporting, property, revenue accounting, governance, procurement, risk management, communication, community engagement, human resources, information management, administration and records and civic support.

PART 2-THE PLAN

This part outlines the three year term achievements that Council will undertake to progress the Community Strategic Plan, along with one year actions that Council will complete during the coming year. These have been developed against each of its six themes:

- 1. Community, People and Culture
- 2. Natural Environment
- 3. Places, Spaces and Infrastructure
- 4. Access, Traffic and Transport
- 5. Local Economy and Employment
- 6. Leadership and Governance

THEME 1 Community, People and Culture

A healthy, safe, and diverse community that respects our history, and celebrates our differences in a vibrant culture of learning.

MAINTAIN OR INCREASING

Glossary of terms

Aboriginal Heritage Office (AHO)

Ku-ring-gai Council is a member of the Aboriginal Heritage Office, which preserves and protects over 1,000 Aboriginal heritage sites across Sydney's north shore. The partnering councils are Ku-ring-gai, Lane Cove, North Sydney, Willoughby, Strathfield and The Northern Beaches. The AHO also studies Aboriginal life before colonisation and runs a series of educational walks and talks for school groups and the general public. The AHO hosts the only Aboriginal Museum, Education Centre and Keeping Place in northern Sydney and supports local Aboriginal people. The office recently moved from its home in Northbridge to new premises in Freshwater.

Best Practice

A best practice is a method or technique that has consistently shown results superior to those achieved with other means, and that is used as a benchmark.

Better Business Partnership (BBP)

BBP is a joint Council program designed to improve the sustainability of businesses located on Sydney's North Shore. Small to medium sized businesses can join the program for free thanks to the support of the local government areas (LGAs) of Ku-ring-gai, North Sydney and Willoughby City. For information visit: www.betterbusinesspartnership.com.au

Bi-annual Review

Review of progress in meeting the Delivery Program objectives and budget forecasts.

Biodiversity

The variety of all living things including plants, animals and microorganisms, their genes and the ecosystems of which they are a part.

Catchment

Area of land that drains rainfall into a river or lake.

Community Engagement

Refers to Council's consultative practices that enable communities and individuals to participate in the development of Ku-ring-gai and build community capacity. It supports and informs all Council's decision-making processes.

Community Strategic Plan (CSP)

The Community Strategic Plan - Our Ku-ring-gai 2038 identifies the community's main priorities and aspirations for the future and sets out clear strategic directions to achieve them over the long-term. While Council has the main role in progressing the plan on behalf of the community other partners such as government agencies, external organisations and community groups also play an important role in delivering the long-term objectives of the plan.

Councillors

Elected representatives, who set strategic direction for the organisation, monitor organisational performance, liaise with stakeholders and ensure operational compliance.

Database

Systematic arrangement of computer data to enable it to be automatically retrieved and manipulated.

Development Control Plan (DCP)

Provides policy statements and more detail beyond the provisions contained in a Local Environmental Plan and serves to further guide development decisions across the local government area.

Delivery Program

The Delivery Program outlines what Council intends to do towards achieving the Community Strategic Plan's long-term objectives and priorities during the term of the elected Council. This includes identifying who is responsible for achieving objectives in the Community Strategic Plan. Some will be the responsibility of Council, some will be other levels of government and some will be community groups or individuals.

Estimate Resident Population (ERP)

This is the estimated resident population and is updated annually by the Australian Bureau of Statistics. The Census count is not the official population of an area. To provide a more accurate population figure which is updated more frequently than every five years, the Australian Bureau of Statistics also produces 'Estimated Resident Population' (ERP) numbers.

Financial year

The financial year that we are monitoring and reporting on in this Delivery Program and Operational Plan is the period from 1 July 2019 to 30 June 2020.

Governance

Governance comprises the traditions, institutions and processes that determine how power is exercised, how citizens are given a voice, and how decisions are made on issues of public concern.

Greater Sydney Commission (GSC)

The role of the Commission is to coordinate and align planning that will shape the future of Greater Sydney.

Refers to the extensive aboriginal, natural, social and built history of the Ku-ring-gai area. It consists of those places and objects, including houses, public and commercial buildings, parks and monuments, that we as a community have inherited from the past and want to hand on to future generations. In a planning context, heritage refers to things in our built and natural environment that we want to preserve for future generations to enjoy.

HPE Records Manager

Electronic system that registers incoming and outgoing correspondence and documentation and provides ready access to files.

ICI FI

An international association of local governments and their associations that have made a commitment to sustainable development.

Indigenous

Refers to origination in a particular region or country, native to the area. The original inhabitants of the Ku-ring-gai area were the Guringai people. For thousands of years before the arrival of European settlers, the Guringai people lived in the area from Newcastle down to Sydney, mostly along the foreshores of the harbour. The Guringai people developed a rich and complex culture, including distinctive language, customs, spirituality and law, the heart of which was their connection to the land.

Infrastructure

Roads, buildings, bridges, pavements, cycleways and other constructions.

Integrated Planning and Reporting (IP&R)

In 2009, the NSW Division of Local Government introduced the Integrated Planning and Reporting Framework. The framework introduced a hierarchy of plans which require:

- long-term strategic planning with the community
- · long-term resourcing strategies for assets, finances and the workforce
- · programs aligned to a council's term, detailing key actions, projects and resourcing
- · one year plans of actions, projects and budgets
- · quarterly, biannual and annual performance reporting schedule.

Independent Pricing and Regulatory Tribunal of NSW. The tribunal sets the local government rate peg and assesses applications for special rate variations and council contributions plans.

Issue

A key area of concern or priority identified by the community and Council that needs to be addressed.

Leachate

Water carrying impurities that have percolated through the earth, primarily at rubbish tips.

Local Environmental Plan (LEP)

An environmental planning instrument that contains legally binding provisions relating to development.

Long Term Objective (LTO)

Describes the desired future state or outcome for each issue. 'Long Term' implies that it is beyond this Council's term and in some instances beyond a second term as well. It recognises that it may take some time to achieve the objective.

Long Term Financial Plan (LTFP)

The Long Term Financial Plan sets out Council's 10 year financial plan.

National Institute of Economic and Industry Research Pty Ltd (NIEIR)

The NIEIR is a private economic research and consulting group. It provides data on economic and social indicators for local government areas.

Northern Sydney Regional Organisation of Councils (NSROC)

Comprising the Councils of Hornsby, Hunter's Hill, Ku-ringgai, Lane Cove, Mosman, North Sydney, City of Ryde and Willoughby.

Objectives

An objective is a specific, measurable condition that must be attained in order to accomplish a particular program goal.

Operational Plan

An annual plan that provides details of projects and activities for one year of the Delivery Program with a detailed annual budget.

Partnering

A structured approach to working together with other parties to achieve a mutually beneficial outcome.

Performance Reporting

The introduction of a corporate performance reporting system has allowed Council to significantly progress the quality of our reporting and to improve the connectivity of our short, medium and long term objectives and relate these to the performance indicators which have been developed to support the objectives of the Community Strategic Plan. The performance of Council against the delivery of the activities is measured through two levels of indicators. Performance indicators (PIs) represent a measure of the standard or outcome of an organisation's services or activities. The PIs are designed to encapsulate the performance and outcomes of Council and are reported on every twelve months. Tied to this reporting, Council also receives quarterly budget reports which provide data

on the financial position of Council in terms of its income and expenditure as well as the status of its adopted capital works program.

Performance Indicator (PI)

A measure that assists in the assessment of overall performance towards the community's long-term achievements and objectives and also tells Council whether we are heading in the right direction.

Plan of Management (PoM)

A document which regulates the use and management of community land.

Principal Activity

Key areas in which Council sets objectives, delivers tasks, projects, programs and services and utilises PIs in order to measure performance.

Projected population

Our population is projected to rise to 154,550 by 2036. (NSW Planning and Environment, Projected Population, 2016).

Quadruple Bottom Line (QBL)

The framework for measuring and reporting on the achievement of long-term objectives in the Community Strategic Plan against governance, economic, social and environmental parameters.

Quarterly Review

Review of progress in meeting operational plan objectives and budget forecasts.

Resourcing Strategy

The Resourcing Strategy details how the strategic aspirations of Ku-ring-gai can be achieved in terms of time, money, people and assets. The Resourcing Strategy spans ten years. Its component parts include:

- 10-year Long Term Financial Plan
- 10-year Asset Management Strategy
- 10-year Workforce Management Strategy

The Resourcing Strategy is the link between the long-term Community Strategic Plan and the medium-term Delivery Program. It is prepared every four years following each Council election. It is developed concurrently with the other plans in the IP&R framework. The Resourcing Strategy is designed to be a living document to reflect changing financial and asset information. Initiatives within the Resourcing Strategy will be reviewed annually to ensure relevance in the changing environment and to incorporate any community feedback.

Riparian

Situated on the bank of a creek or body of water.

Risk Management

Good management which operates to minimise the incidence of injury, damage, or loss to persons or property and to the good reputation of Council.

Special Rate Variation (SRV)

There are two types of special rate variations that Council can apply for: Section 508(2) is a one-off percentage increase (greater than the rate peg) that remains permanently in the rate base, or a one-off percentage increase (greater than the rate peg) for a fixed period after which the rate base is adjusted back to the rate peg path.

Stakeholder

Any individual or group having a particular interest in a project or action.

State of Environment Report

Mechanism for providing details on the current status of the main environmental issues utilising the pressure, state, response model.

Sustainable Development

Development designed to meet the present needs whilst also taking into account future costs. These include environmental costs and the depletion of natural resources.

Sustainability

Sensitive use of natural resources without harming the ecological balance of the region.

Target

A numerical goal against which performance is measured.

Term Achievement

The three year result that Council nominates as the achievement to be reached within its term. It also describes how far Council will progress each long term objective during its three year term.

Theme

A topic heading that groups issues, long term objectives and term achievements together. The six themes in the Community Strategic Plan are:

- 1. Community, people and culture
- 2. Natural environment
- 3. Places, spaces and infrastructure
- 4. Access, traffic and transport
- 5. Local economy and employment
- 6. Leadership and governance

Together the six themes, containing issues, objectives and term achievements, represent a comprehensive view of Ku-ring-gai's future directions.

Values

Underlying attitudes that influence decisions and actions to maximise an organisation's performance.

Vision

Statement of direction that articulates the aspirations of the community and serves as a guide to all those who contribute to it.

PART 3 - FINANCE

This part contains Council's financial management framework, budget, revenue policy and capital works program. Council's draft Fees and Charges 2019-2020 are detailed in a separate document.

All Integrated Planning and Reporting plans are available on Council's website, four libraries and the Customer Service Centre in Gordon

This section includes the following attachments:

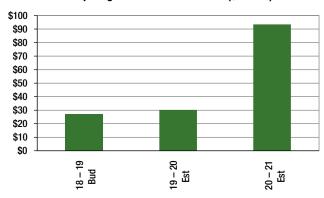

Financial summary	81
Summary of Capital Works Program and Operational Projects by Project Group 2019/20 (\$000's)	92
Capital Works Program & Operational Projects 2019/20	93
Capital Works Program & Operational Projects 2020/21	10 ⁻
Canital Works Program - Special Rate Variation for Infrastructure Summany 2010/20	100

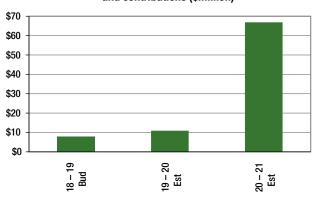

Financial summary

Ku-ring-gai Council is in a sound financial position. The 2019/20 budget provides for an operating surplus of \$30 million after allowing for the depreciation expense on Council's \$1.353 billion portfolio of largely depreciable assets such as roads, footpaths, drains and buildings. If capital grants and contributions are excluded, the operating result remains in surplus, with a result of \$10.7 million. This is consistent with Council's long term financial plan which provides a framework to achieve continued operating surpluses.

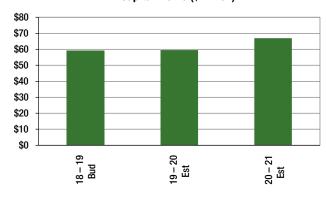

Operating Surplus excluding capital grants and contributions (\$million)

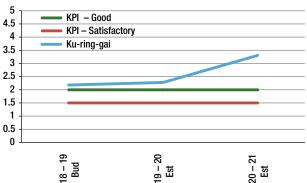

The Operating Surplus contributes to Council's capital works program. In 2019/20 the capital works program is \$59.98 million. Details of the capital works program for 2019/20 can be found in the following pages.

Council's long term financial plan and budget ensures that Council maintains adequate liquidity. This is demonstrated by the Unrestricted Current Ratio, for which the industry benchmark of greater than 1.5:1 is considered to be 'Satisfactory' and greater than 2:1 to be 'Good'. Council's budget maintains a 'Good' Unrestricted Current Ratio that is greater than 2:1.

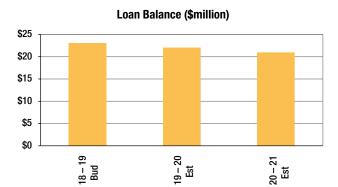

Capital Works (\$million)

Unrestricted Current Ratio

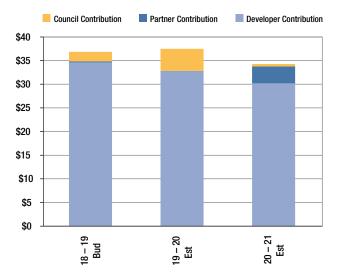

Council's 2019/20 budget provides for loan capital repayment of \$1.2 million. The outstanding loan is discharged by revenue from general funds provided by the future net revenue generated from leasing out the investment property at 828 Pacific Highway, Gordon.

Council collects s.94 contributions from developers to help pay for new infrastructure and facilities for the growing population of the area. Some of the works to be undertaken in the s.94 plan cater for the existing population and these works require a co-contribution from Council's general funds. The funding allocated to works programmed to be undertaken over the next years are shown below:

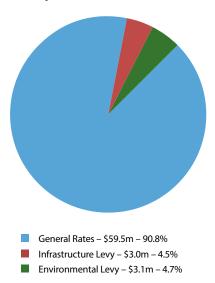

S94 Works Program - Funding Allocation (\$million)

Council's total Rates income is 'pegged' by the State Government and approval must be obtained for increases above this amount (known as Special Rates Variations).

In the 2019/20 budget the projected Rates income is \$65.6 million. This amount includes the permanent existing Special Rates Variations for Infrastructure and assumed continuation of the Environmental Levy. Council applied to IPART for a permanent continuation of the Environmental Levy and is expecting a decision in mid May 2019.

Projected Rates Income 2019/20

A summary of Council's Funding Statement for the next two years is provided below:

FUNDING STATEMENT (\$000's)	2018/2019	2019/2020	2020/2021
Operating Revenue	147,714	153,986	221,461
Operating Expense	120,735	124,017	128,258
Net Operating Result for the Year (after Capital Grants & Contributions)	26,979	29,969	93,203
Net Operating Result for the Year (before Capital Grants & Contributions)	7,785	10,666	66,569
Operating Surplus (after Capital Grants & Contributions)	26,979	29,969	93,203
Plus: Depreciation & Amortisation	17,268	17,279	18,046
Plus: Book Value of Assets sold & Other Non-cash items	400	-	2,395
Plus/Less Net Loan borrowing	36	-1,213	-1,088
Plus/Less Net Transfers from Reserves	14,647	13,973	-45,609
Capital Works	-59,230	-59,978	-66,897
Net Change in Working Capital	100	30	50

DOMESTIC WASTE MANAGEMENT

Sections 496 and 504 of the Local Government Act, 1993 (as amended), require councils to make and levy an annual charge for the provision of a domestic waste management (DWM) service for each parcel of rateable land for which the service is available, ensure that the cost of providing the service is met by the charge and that the charge is reasonable for the services provided. A council cannot use income from its ordinary rate towards the cost of providing DWM services.

Ku-ring-gai Council's Domestic Waste Management service is provided on the following basis:

▶ A. Single residential dwellings/base service

- A weekly general waste collection service from a container provided by Council.
- A fortnightly green waste collection service from a container provided by Council.
- A fortnightly recycling collection service for paper products from a container provided by Council.
- A fortnightly recycling collection service for food and beverage containers from a container provided by Council.
- By appointment, a kerb-side clean up of a maximum three cubic metres bulky materials which is subject to availability.

▶ B. Flats and home units

- A weekly general waste collection service per unit occupancy of 120 litres per week from a container provided by Council.
- A weekly recycling collection service for paper products and food and beverage containers from a container provided by Council.
- By appointment, a bulky waste collection service with a maximum volume of three cubic metres which is subject to availability.

► C. Medium density residential/base service

- A weekly general waste collection service per occupancy using 120 litre bins.
- A fortnightly recycling collection per occupancy using 120 litre containers for paper/ cardboard products.
- A fortnightly recycling collection per occupancy using 120 litre containers for food and beverage containers.
- By appointment, a bulky waste collection with a maximum of 3 cubic meters which is subject to availability.

D. General

- Rehabilitation and maintenance of former domestic waste landfill sites to meet environmental guidelines and statutory responsibilities.
- Single residential domestic waste service upgrades to 240 litre waste bins or additional green waste bins are provided for a minimum period of 12 months from date of purchase.

Charges for 2019/20 are shown below

Category	Charge per Occupancy	Service/Properties	Estimated Yield
Base service with green waste	\$455.00	25,995	\$11,827,725
Base service without green waste	\$305.00	398	\$121,390
Flat, home unit	\$395.00	12,441	\$4,914,195
Additional green waste bin	\$150.00	3,560	\$534,000
240L bin with green waste	\$655.00	5,161	\$3,380,455
Additional 120L waste bin	\$200.00	183	\$36,600
Availability/vacant land	\$180.00	229	\$41,220
240L waste bin without green waste	\$505.00	32	\$16,160
240L waste bin, flat, home unit	\$595.00	7	\$4,165
Total Yield			\$20,875,910

Note: For Aged Care/Retirement villages rated as Residential Properties, charge is applied per service as follows:

- Base service without green waste plus \$152.50 (being 50%) for each additional service 1 x bed self-care unit.
- Base service without green waste plus \$76.25 (being 25%) for each additional service 1 x bed fully serviced hostel room.

Note: For Aged Care/Retirement villages exempt from rating, charge is applied under Section 496(2) per service as follows:

- Base service without green waste plus \$152.50 (being 50%) for each additional service 1 x bed self-care unit.
- Base service without green waste plus \$76.25 (being 25%) for each additional service 1 x bed fully serviced hostel room.

Revenue policy

RATES STATEMENT

Ordinary rate

The land within the Ku-ring-gai local government area is divided into two categories: residential and business.

Council has two ordinary rates being a general residential rate and a general business rate. Business and residential categories can be defined as follows:

- ▶ Residential Rate each parcel of land valued as one assessment whose dominant use is for residential accommodation (other than as a hotel, motel, guesthouse, boarding house, nursing home or any other form of residential accommodation whose dominant use is for business or profit).
- ▶ Business Rate each parcel of land valued as one assessment whose dominant use is for business, commerce or associated with business for profit; whether profitable or not. In accordance with the Local Government Act, 1993, land is to be categorised as 'business' if it cannot be categorised as farmland, residential or mining.

Those properties that are subject to a Mixed Development Apportionment Factor (MDAF) as supplied by the Valuer General are rated as part Residential and part Business on the basis that MDAF are not categorised according to dominant use.

Special rates

Council has three current special rates:

- Infrastructure Primary Rate: used to maintain, renew and upgrade Council's infrastructure. The Infrastructure
 - Primary Rate will be levied on all rateable land within the Ku-ring-gai local government area.
- Infrastructure Special Rate Variation: used to maintain, renew and upgrade Council's infrastructure (road improvements program). In June 2014 Council was granted an approval from IPART for the permanent continuation of the Special Rate Variation for infrastructure. The Infrastructure Special Rate Variation will be levied on all rateable land within the Ku-ring-gai local government area.

■ Environmental – Special Rate Variation: used to implement and continue a range of environmental programs. The Environmental Levy has been in place since 2005 and was due to expire on 30 June 2019. In February 2019, Council lodged a Special Rate Variation to IPART seeking a permanent continuation of the existing Environmental Levy and was successful.

The new levy is equivalent to five per cent (5%) of the notional general income of Council. The Environmental – Special Rate Variation will be levied on all rateable land within the Ku-ring-gai local government area.

Further details are provided on pages 10 - 12.

► Rates Increase and Structure

The NSW Government introduced 'rate pegging' in 1977. Each year the NSW State Government approves a maximum percentage increase in the total income a council can receive from rates, known as the 'rate-peg'. In 2019/20 the Rate Peg has been determined by IPART at 2.7% and this percentage increase has been applied to Council's rates.

► Rates Structure including Rate Pegging increase of 2.7% (with the Environmental Levy)

The details of rates levied will be as follows:

Туре	Category	Rate in \$	Min/Base Amount (\$)	% of Revenue from Base for each rate	Yield \$
Ordinary	Residential	0.00067694	\$540.00		\$31,137,284
Ordinary	Business	0.00472110	\$540.00		\$4,575,267
Special	Infrastructure - Primary Rate	0.00031595			\$12,434,086
Special	Infrastructure - Primary Rate		\$278.00	49.90%	\$12,383,232
Special	Infrastructure - Special Rate Variation	0.00003770			\$1,483,481
Special	Infrastructure - Special Rate Variation		\$33.00	49.77%	\$1,469,952
Special	Environmental - Special Rate Variation	0.00007827			\$3,080,248

The Ordinary General Residential and Business Rates, plus the special 'Infrastructure – Primary Rate' together represent the total notional rates income of Council excluding the rates received from the two special rate variations. The above rates structure divides this amount into the Ordinary Rates (59%) and 'Infrastructure – Primary Rate' (41%).

Under this rates structure, Council will grant a voluntary pensioner rebate (in addition to the Statutory Rebate) of 8.5% of the total Council rates and charges. This voluntary rebate will apply to pensioners who are eligible for the Statutory Rebate.

▶ Payment of Rates

Ratepayers may pay their rates in four instalments being: 31 August, 30 November, 28 February and 31 May each year. Council is required to forward notices one month in advance. Council's payment options include:

- a telephone payment service.
- direct debit.
- payments at Australia Post.
- credit card, cheque, money order or cash payments at Council Chambers.
- BPay.
- internet payments by Credit Card via Council's website.

Interest is charged on each instalment not paid by the due date.

The applicable interest rate is set each year by the Minister for Local Government. Council will adopt the maximum rate applicable as set by the Minister for 2019/20 which is 7.5%.

► Statutory Pensioner Rebate

Eligible pensioners receive a statutory reduction of 50 per cent of the combined rates and domestic waste management charge to a maximum of \$250. Council receives a subsidy of 55 per cent of the total statutory rebate. To be eligible for a full year rebate, the date on which the person becomes eligible must be on the date rates and charges are levied in any rating year. Pensioners who become eligible after the date on which rates and charges are levied will receive a rebate proportionate to the number of full quarters remaining in the rating year after the day on which the person becomes an eligible pensioner (Local Government Act, 1993 section 575). Those pensioners who are uncertain of their status should contact Council for assistance and advice. The granting of the Statutory Pensioner Rebate to eligible pensioners is limited to the current year and previous year only.

► Voluntary Pensioner Rebate

In addition to the Statutory Pensioner Rebate, Council will grant a voluntary pensioner rebate in accordance with the adopted rates structure discussed in section 'Rates Increase and Structure' on page 85.

This voluntary rebate will apply to pensioners who are eligible for the Statutory Rebate. It will be granted to all eligible pensioners on the same basis as the Statutory Pensioner Rebate for 2019/20. The granting of the Council's Voluntary Pensioner Rebate to eligible pensioners is limited to the current year and previous year only.

► Other Rating Issues

Aggregation of rates in accordance with section 548A of the *Local Government Act, 1993* (as amended) will apply in the following situations:

For all lots categorised as Residential or Business for rating purposes, one separately titled car-space and one separately titled utility lot that are in the same ownership as the residential or business lot and are within the same building or Strata Plan. All aggregations will only apply from the commencement of the quarter following the lodgement of the application with Council.

Upon registration of a plan of subdivision or consolidation with the registrar general Council will re-rate the property(s) from the commencement of the following quarter of the rating year.

For the 2019/20 rating year, the base date for Land Values is 1/7/2016.

Council adopted a Policy for Relief from Rates Hardship Resulting from Land Valuation Changes, for relief to ratepayers who experience substantial hardship as a result of new land valuations. Whilst rates will not be reduced or waived, Council may defer payment of all or part of the rates increase once a hardship application is lodged. The ratepayer may ask Council to review any decision and Council has the discretion to do so. Where the application is approved and payment of the increased rates is made in accordance with the arrangement, interest charges will be written off. The policy, including assessment criteria and eligibility, is available at www.kmc.nsw.gov.au/policies.

OTHER CHARGES

▶ Stormwater Management Charge

The stormwater management service charge for 2019/20 is levied under Section 496A of the *Local Government Act,* 1993 (as amended).

The charges have been set in accordance with the *Local Government Amendment (Stormwater) Bill, 2005* and for 2019/20 are as follows:

- Strata/Company titled residential home units: \$12.50 per unit.
- Other residential property: \$25.00 per rateable property.
- Business rateable property: \$25.00 per 350 square metres of land area (a maximum charge of \$1,500.00 applies to land area greater than 21,000 square metres).
- Strata/Company titled business units: a minimum of \$5.00 or the relevant proportion of the maximum annual charge that would apply to the land subject to the strata scheme if it were a parcel of land subject to the Business rateable property charge.

► Waste Management Charge – for Business Properties

The waste management charge for 2019/20 is levied under Section 501 of the *Local Government Act, 1993* (as amended).

Council's annual waste management charges include a charge for waste management per business service provided. Upon request, a 120L Waste Bin to be emptied weekly will be provided. In 2019/20 this charge will be \$270 per service.

The charge for Aged Care/Nursing Homes rated as Business Properties will be \$270 per service. The service is:

- Equivalent of 120 litres of waste per service per week.
- Equivalent of 120 litres of recycling per service per week.

► Section 611 charge - Gas Mains

Under Section 611 of the *Local Government Act, 1993* (as amended) a council may make an annual charge on the person for the time being in possession, occupation or enjoyment of a rail, pipe, wire, pole, cable, tunnel or structure laid, erected, suspended, constructed or placed on, under or over a public place.

For the purpose of gas supplies, a charge is equal to 0.75 per cent of average sales for five years plus a main apportionment calculated according to the percentage of mains within Ku-ring-gai. This is assessed in accordance with the judgement by Justice Pike (AGL v. Glebe Municipal Council) and the charge to be calculated using the independent audited figures prepared for the Local Government NSW (LGNSW) and the apportionment determined by the LGNSW.

Pricing – goods and services

Council's pricing methodology is detailed below. The Schedule of Fees and Charges (see separate document) also details the principles employed by Council in determining each fee and charge.

PRICING PRINCIPLES

CODE	PRICING BASIS	PRICING PRINCIPLE INCLUDES
F	Full Cost Recovery Council recovers all direct and indirect cost of the service, including depreciation of assets.	The service benefits particular users, making a contribution to their individual income, welfare or profits or a private benefit being provided without any broader benefits to the community. Council has a monopoly over the provision of the service and there are no community service or equity obligations. Example of Full Cost Recovery - application for drainage easement and abandoned vehicle, removal and storage. Standard fee to be paid prior to release of the vehicle.
P	Partial Cost Recovery Council recovers less than full costs, reasons may include community obligation or legislative limits on charging.	The benefits from provision of the service accrue to the community as whole as well as individual users. Charging prices to recover full cost may result in widespread evasion. The service promotes or encourages local economic activity. Example of Partial Cost Recover - tree preservation orders, youth program fees and freedom of information.
L	Statutory Price of the service is determined by Legislation. Price may or may not recover full cost.	The service is a regulatory or statutory service and where the fee is determined by Council in accordance with a pricing principle prescribed in regulations (e.g. a maximum price). The amount of the fee is prescribed in regulations or determined by the Director General of the Office of Local Government or another authorised authority. Council has no discretion to determine the amount of the fee for a service when the amount is fixed by regulation or by another authority. Example of Statutory - Certificates for classification of Council land.
M	Market Pricing Price of the service is determined by examining alternative prices of surrounding service providers. Price may or may not recover full cost.	The service provided is in competition with that provided by another Council or agency (private or public) and there is pressure to set a price which will attract adequate usage of the service. Example of Market Pricing - copying of documents.
R	Rate of Return This would include full cost pricing in addition a profit margin to factor in a return to Council.	The service is a profit making activity and the price paid by users should recover greater than the full cost of providing the service; (a) fees charged are greater than the full cost of the service to act as a disincentive; (b) fee charged for possession, occupation or enjoyment of Council land and air space by Gas, Electricity, Water and Telecommunications. Example of Rate of Return – road restorations.
Z	No Charge Some services may be provided free of charge and the whole cost determined as a community obligation or may be classed as a public good.	Service provides a broad community benefit. Impractical to charge for service on a user basis. Service is a minor part of the overall operation of Council. The potential for revenue collection is minor and is outweighed by the cost of collection. Example of No Charge – Public access internet provision.

Budget statements
