PRINT REQUEST DETAILS	
Colour <i>Red, green, yellow, blue, purple, orange, black, white, grey.</i>	One colour limit for each design.
File name	
Number of objects	
Terms & Conditions: <ul style="list-style-type: none"> Staff will review your saved print request with you, provide a total cost and prepare your print. Charges will be \$3.50 plus \$0.50 per gram of filament used. Printing costs are to be paid upfront and are non refundable. Ku-ring-gai Library reserves the right to refuse to print a design if it is unlikely to print correctly, will take more than eight hours or is considered inappropriate, illegal or it breaches copyright. Once your model is complete you will be contacted via email to collect. Models will not be transferred to other library branches or posted. Staff will endeavour to present the best possible model but models must be accepted as is. Staff are not responsible for damage that occurs on removal of model from build plate. Staff cannot offer assistance with design of model or programs for designing models. Maximum build size is 25.2 cm L x 19.9 cm W x 15.0 cm H. Supports and rafts may be added to ensure a successful print.

Get started

The libraries 3D Printer is a device that uses plant based PLA plastic filament to create three dimensional objects.

To create objects for printing use 3D modelling software.

Popular FREE 3D online software

Thingiverse- find and download model's other users have designed and shared.

Tinkercad- Gives interactive tutorials and is perfect for beginners.

Freecad- Great for beginners, who would like to design something a little more sophisticated.
